

Orange at VivaTech 2026: innovating to build a trusted digital future

- Orange, a founding partner of VivaTech, will take part in the event's 10th edition and highlight its new strategic vision: Trust the future.
- As the only telecom operator at the event, the Group will demonstrate how intelligent, secure and resilient networks help unlock the full value of artificial intelligence (AI).
- More than 60 start-ups will join Orange's stand to showcase innovations designed to improve security, efficiency and everyday digital experiences.

At the 10th edition of VivaTech, held from June 17 to 20, 2026 at Paris Expo Porte de Versailles, Orange will reaffirm its position as a leading telecom and tech operator. The Group will show that innovation and AI create lasting value only when they are useful, accessible and trusted.

At a time of major technological investment and growing digital sovereignty challenges, Orange is building on the strength of its infrastructure to deliver future-ready connectivity, essential to deploying high-performing, secure and responsible digital solutions at scale.

Four spaces to explore Orange's vision in action

Future-ready Connectivity: networks as the foundation for trust and AI

Today, the network is more than infrastructure. It is a strategic asset that can adapt to the latency, performance and security needs of AI.

- **Network Digital Twins:** an innovation combining generative AI, digital twins and extended reality to help teams monitor and simulate networks using natural language.
- **Deepfake Detection:** a concrete response to the risks created by generative AI, able to analyse voice, video and documents in real time to help secure contact centres and video conferencing.
- **Live Space:** a demonstration of Orange's global and resilient connectivity, bringing together terrestrial, submarine and satellite networks.

Future-ready Business: helping companies transform critical operations

Orange combines AI and connectivity to help businesses improve performance across critical processes.

- **Operational AI Agents with Live Intelligence:** sovereign AI agents orchestrated within a digital twin of a port area to automate actions and support operators in real time.
- **Orange Drone 360:** Europe's first counter-drone service delivered as a service, based on trusted cloud capabilities and sovereign infrastructure to help protect sensitive sites.

Future-ready Experience: making everyday digital interactions simpler and more secure

Orange is also showcasing solutions that make daily life easier, safer and more seamless for businesses, professionals and consumers.

- **Tap to Pay:** an inclusive solution developed in France through the Contodeo app by W-HA, enabling merchants and micro-entrepreneurs to turn their smartphones into secure payment terminals, with no additional equipment required.
- **Trusted Interactions:** network APIs designed to make customer journeys more secure, including automatic caller authentication and certified brand display during calls. It will notably feature **Branded Call**, a secure solution featuring triple anti-spoofing protection, enabling companies to display their identity during calls, strengthen trust and help fight fraud.

Future-ready Society: supporting a safer and more inclusive digital world

On **Saturday, June 20**, Orange will welcome the public with experiences focused on awareness, prevention and responsible digital use.

- **Protocol 404 – Immersive Play:** a tablet-based escape game developed by Orange Cyberdefense to raise awareness of cyberattacks in an engaging and educational way.
- **Don't Go to the Police:** an educational short film by Ludoc highlighting the reality of cyber-extortion.
- **For Good Connections:** Orange's programme promoting more responsible digital habits, including awareness around screen use and cyberbullying.

Open innovation at the heart of Orange's growth strategy

At VivaTech, Orange will bring its technology vision to life through a strong collective dynamic with partners and start-ups. More than **60 start-ups**, including winners of Orange Fab France challenges and French Tech 2030, will be present on the stand, with expertise in areas such as cybersecurity and AI agent orchestration, including **NeuralTrust, Multiverse Computing and CryptoNext Security**.

"At VivaTech 2026, Orange is not just presenting technologies. We are showing in very concrete terms that high-performing digital services must also be trusted ones. By turning our networks into intelligent and programmable platforms, we are helping enable responsible AI that is grounded in reality and useful to people," said Bruno Zerbib, Chief Technology and Innovation Officer at Orange

Meet Orange leaders at VivaTech

On Vivatech Stages

Christel Heydemann, Chief Executive Officer of Orange

Keynote - Wednesday, June 17, 14 :30 p.m. CET, on the Main Stage

Sovereignty Is the New Business Continuity - Wednesday, June 17, 11:30 a.m. to 11:55 a.m. CET, Sovereignty Stage

Bruno Zerbib, Chief Technology & Innovation Officer of Orange

Roundtable: When AI Systems Decide: Where Does Responsibility Reside? — Wednesday, June 17, 3:10 p.m. to 3:55 p.m. CET, Red Stage

Aliette Mousnier-Lompré, CEO d'Orange Business

Roundtable: The India-EU Stack - Thursday, June 18, 9 :30 a.m. CET at the VivaTech Theater

Hugues Foulon, CEO of Orange CyberDefense

Roundtable: AI vs. AI: The Race to Secure the Future — Thursday, June 18, 2:50 p.m. to 3:35 p.m. CET, Purple Stage

In addition to these presentations, various roundtable discussions and debates are organized on the Orange stand's Agora.

About Orange

Orange is one of the world's leading telecommunications operators. The Group aims to be the trusted partner for everyday digital life by providing individuals, businesses and communities with reliable connectivity and innovative services. As of the end of 2025, Orange connects 340 million customers (including MasOrange) across 26 countries and generated 40.4 billion euros in revenues.

As a trusted player, Orange leverages the excellence of its very high-speed broadband networks to deploy digital infrastructure in Europe, Africa and the Middle East. The Group is a European leader in fiber, with 100 million connectable households, and convergent offers. In France, Orange connects 34 million customers and was ranked No. 1 by the regulator Arcep for the quality of its mobile network for the 15th consecutive year. In Africa and the Middle East, the Group's growth engine, Orange serves nearly 180 million customers and promotes digital and financial inclusion through its connected solutions.

Under the Orange Business brand, the Group supports companies in transforming their networks as well as in AI, trusted cloud and cybersecurity. Orange is also a major player in the wholesale market, where it has a leading global telecom infrastructure and significant capabilities for deploying and operating submarine cables. A committed innovator, Orange relies on 700 researchers and holds a portfolio of 11,000 patents.

Orange is listed on Euronext Paris (symbol ORA). More information: www.orange.com.
