Together 2021: Orange launches a new employee shareholding operation

Orange launches Together 2021, an employee shareholding operation for the Group’s employees1. This scheme aims to increase the capital held by company employees by around 1%.

As of June 30, 2021, 80% of Group employees (and 88% of Orange employees in France) were company shareholders. Employees or formers employees held 6.50% of capital and around 10% of voting rights.

This 12th employee shareholding scheme reflects efforts made by Orange to make employees part of the Group’s long-term development and the success of the Engage 2025 strategic plan, whilst reinforcing this element of stability in company governance. Through these schemes, employee shareholders can actively and independently play a role in company governance, either directly or via the supervisory boards of employee shareholding funds.

Together 2021 follows the 2 December 2020 announcement concerning the reimbursement of €2.2 billion by the French State Council related to a long-standing tax dispute.

On the announcement of the launch of this employee shareholding scheme, Stéphane Richard, Chairman and CEO of the Orange Group, declared: “Together 2021 is a new step to achieve our goal of 10% employee share ownership over time, and to allow employees to play an even bigger role in the Group’s development and prospects.”
