Section D – Risques		
D.2	Principaux risques liés à l'Emetteur	<p>I Risques opérationnels</p> <p>Le développement rapide des usages du haut débit (fixe ou mobile) et l'apparition de nouvelles technologies d'accès réseau donnent aux acteurs mondiaux de la sphère Internet l'occasion d'établir un lien direct avec les clients des opérateurs de télécommunications, privant ces derniers - dont Orange - d'une partie de leurs revenus et de leurs marges. Si ce phénomène s'intensifiait, il pourrait affecter gravement la situation financière et les perspectives des opérateurs.</p> <p>Le Groupe a inclus dans son plan <i>Essentiels2020</i> le développement des activités de services financiers mobiles, matérialisé en 2016 par l'obtention d'agréments d'établissements de monnaie électronique en Afrique et la prise de participation dans Groupama Banque, puis au 1^{er} semestre 2017 par le lancement d'Orange Bank. Ces activités sont susceptibles de générer des risques nouveaux spécifiques ou d'accroître l'impact des risques actuels.</p> <p>Orange est exposé à des risques liés aux données de ses clients, notamment de divulgation ou de modification inappropriée, et ses activités de fournisseur d'accès à Internet et d'hébergeur sont susceptibles d'engager sa responsabilité ou de nuire à sa réputation.</p> <p>Une grande partie du chiffre d'affaires d'Orange est réalisée dans des marchés matures où la concurrence vive entre les opérateurs s'exerce sur les prix et sur la capacité des opérateurs à proposer aux clients des offres convergentes, et il peut en résulter une baisse de la rentabilité ou des parts de marché.</p> <p>Orange est exposé au risque d'interruption de ses réseaux et services à la suite de cyber-attaques, de sabotages, de pannes ou d'erreurs humaines portant sur des matériels ou logiciels critiques, du dysfonctionnement d'un équipement réseau, de la défaillance d'un fournisseur clé, ou de la saturation du réseau.</p> <p>Les infrastructures techniques des opérateurs de télécommunications sont vulnérables aux dommages ou aux interruptions provoquées par des catastrophes naturelles, incendies, guerres, actes terroristes, dégradations intentionnelles, actes de malveillance ou autres événements similaires.</p> <p>L'étendue des activités d'Orange et l'interconnexion des réseaux exposent le Groupe au risque de nombreuses fraudes, qui pourraient impacter son chiffre d'affaires et sa</p>

	<p>marge et nuire à son image.</p> <p>Le Groupe pourrait être dans l'incapacité de fournir les compétences nécessaires à son activité du fait des nombreux départs de salariés ou de l'évolution des besoins dans les prochaines années.</p> <p>Dans le cadre de la consolidation du secteur des télécommunications en Europe, Orange est susceptible de procéder à des acquisitions significatives qui pourraient entraîner des risques d'intégration.</p> <p>Orange compte sur des relais de croissance dans les pays où il a investi. Les investissements déjà réalisés pourraient ne pas donner les résultats escomptés, voire s'avérer source d'obligations inattendues, et le Groupe pourrait être confronté à un accroissement du risque pays, y compris sous l'angle de la corruption. Les résultats du Groupe, ses perspectives et son image pourraient en être affectés.</p> <p>Les opérateurs de télécommunications tels qu'Orange pourraient être affectés par les éventuels effets nocifs sur la santé de l'exposition aux champs électromagnétiques des équipements de télécommunication.</p> <p>Le Groupe commercialise ses produits et services essentiellement sous la marque Orange. La stratégie de diversification vers de nouveaux domaines d'activité et d'expansion géographique vers de nouveaux territoires se fonde dans la politique de marque unique qui en fait aujourd'hui un actif majeur du Groupe.</p> <p>Si une nouvelle crise financière ou économique de grande ampleur intervient dans le futur, son impact sur l'activité pourrait se traduire par une diminution de la consommation et affecter ainsi de manière significative l'activité d'Orange.</p> <p>Orange fait face à différents facteurs de risques humains internes et externes qui pourraient avoir un impact significatif sur l'image, le fonctionnement et les résultats du Groupe.</p> <p>2 <i>Risques juridiques</i></p> <p>Orange opère dans des marchés fortement réglementés où il bénéficie d'une marge de manœuvre réduite pour gérer ses activités. Les activités et le résultat d'Orange pourraient être affectés de manière significative par des changements législatifs, réglementaires ou de politique gouvernementale.</p> <p>Orange est continuellement impliqué dans des procédures judiciaires et des litiges avec des autorités de régulation, des concurrents, des administrations ou d'autres parties. L'issue de ces procédures est généralement incertaine et pourrait avoir un impact significatif sur ses résultats ou sa situation financière.</p> <p>La rentabilité de certains investissements et la stratégie d'Orange dans certains pays pourraient être affectées par des désaccords avec ses partenaires dans des sociétés dont elle n'a pas le contrôle.</p> <p>3 <i>Risques financiers</i></p> <p><i>Risque de liquidité</i></p> <p>Les résultats et les perspectives d'Orange pourraient être affectés si les conditions d'accès aux marchés de capitaux devenaient difficiles.</p> <p><i>Risque de taux</i></p> <p>Les activités d'Orange pourraient être affectées par l'évolution des taux d'intérêt.</p> <p><i>Risque sur la notation</i></p> <p>Une revue à la baisse, une mise sous surveillance ou une révision de la perspective de la notation de la dette du Groupe par les agences de notation pourrait augmenter le coût de la dette et limiter dans certains cas l'accès de la Société au capital dont elle a besoin.</p>
--	--

Section D – Risques		
		<p><i>Risque de dépréciation des actifs</i></p> <p>Orange a enregistré des écarts d'acquisition importants à la suite des acquisitions qu'il a réalisées. Des dépréciations de ces écarts d'acquisition ou d'autres actifs ont été et pourraient à nouveau être constatées en application des normes comptables dans les comptes d'Orange, y compris les comptes sociaux d'Orange SA, ce qui pourrait réduire la capacité de cette dernière à verser des dividendes. Par ailleurs, les résultats d'Orange et sa situation financière pourraient être affectés par la baisse des marchés d'actions en cas d'opération sur le capital de certaines de ses filiales.</p> <p><i>Risque de crédit et/ou de contrepartie sur opérations financières</i></p> <p>L'insolvabilité ou une détérioration de la situation financière d'une banque ou autre institution avec laquelle Orange a conclu un contrat financier pourrait avoir un impact négatif significatif sur la Société et sa situation financière.</p> <p><i>Risque de change</i></p> <p>Les résultats et la trésorerie d'Orange sont exposés aux variations des taux de change.</p>
D.3	Principaux risques liés aux Titres	<p>L'achat ou la détention de Titres implique certains risques qui doivent être pris en compte préalablement à toute décision d'investissement. Généralement, la marge applicable n'est pas modifiée durant la vie du Titre, toutefois, le taux de référence sera ajusté de manière périodique tous les trois ou six mois, étant entendu que cet ajustement changera lui-même en fonction des conditions générales de marché. La possibilité pour l'Emetteur de convertir le taux d'intérêt peut influencer sur le marché secondaire puisque l'Emetteur pourrait convertir le taux au moment où celui-ci serait susceptible de produire un emprunt à moindre coût. Si l'Emetteur choisit de convertir d'un taux fixe à un taux variable, les Titres à Taux Fixe/Variable peuvent avoir un <i>spread</i> moins favorable que les <i>spreads</i> applicables aux Titres à taux variable comparables et liés au même taux de référence. Si l'Emetteur choisit de convertir d'un taux variable à un taux fixe, le taux fixe peut être moins favorable que les taux fixes comparables.]</i> • <i>[Titres Indexés sur l'Inflation : Les Titres Indexés sur l'Inflation portent intérêts pour des montants indexés au rendement des indices d'inflation concerné. Les investisseurs peuvent ne pas être en mesure de calculer par avance leur taux d'intérêt.]</i> • <i>[Titres Zéro Coupon : Les prix des Titres Zéro Coupon ont tendance à faire davantage l'objet de fluctuations en raison des changements généraux des taux d'intérêt que des titres classiques ayant des échéances comparables.]</i> • <i>[Titres libellés en renminbi : Les Titres RMB ne sont pas convertibles librement ; il existe des restrictions significatives relatives au paiement des Titres RMB au sein et en dehors de la République Populaire de Chine. La liquidité des Titres en RMB pourrait en être affectée de manière significative et défavorable.]</i>

Section D – Risks

D.2	Key risks specific to the Issuer	<p>I Operational risks</p> <p>The rapid growth in broadband use (fixed or mobile) and the emergence of new network access technologies allow global players in the Internet sector the opportunity to establish a direct link with telecommunications operators' customers, thus depriving the latter, including Orange, of a share of their revenues and margins. If this phenomenon continues or intensifies, it could seriously impair the financial position and outlook of the operators.</p> <p>The Group included in its <i>Essentials2020</i> plan the development of mobile financial services, concretized in 2016 by obtaining approvals for electronic money in Africa and by making an equity investment in Groupama Banque, then in the first half of 2017 through the launch of Orange Bank. These activities are likely to generate specific new risks or increase the impact of current risks.</p> <p>Orange may face risks linked to customer data, notably for their disclosure to third parties or inappropriate modification. Its liability may also be triggered or its reputation damaged by its Internet access and hosting provider activities.</p> <p>Much of Orange's revenues is earned in mature markets where intense competition among operators to offer attractive prices and convergent offers could erode its profitability or market share.</p> <p>Orange is exposed to the risk of an interruption of its networks and services following cyber-attacks, sabotage, outages or human errors affecting critical hardware or software, malfunctioning of network equipment, failure of a key supplier or network saturation.</p> <p>The technical infrastructure belonging to telecommunications operators is vulnerable to damage or interruptions caused by natural disasters, fires, wars, acts of terrorism, intentional damage, malicious acts, or other similar events.</p> <p>The scope of Orange activities and the interconnection of the networks mean that the Group is exposed to the risk of numerous fraud, which could reduce revenues and margins and damage its image.</p> <p>The Group could have a skills shortage in its activities due to numerous employee retirements or changing needs in the coming years.</p> <p>In the context of consolidation in the European telecommunications sector, Orange is likely to make significant acquisitions that could lead to integration risks.</p> <p>Orange is relying on sources of growth in the countries where the Group has invested. Investments already made may fail to bring the expected returns, and may generate unexpected commitments, and the Group could be faced with increased country risk, including from corruption. The Group's results, outlook and image could be impacted.</p> <p>Telecommunications operators such as Orange may be affected by possible adverse health effects from exposure to electromagnetic fields from telecommunications equipment.</p> <p>The Group markets its products and services mainly under the Orange brand. The strategy of diversification into new businesses and geographic expansion to new territories is conducted under a single brand policy which is a major asset of the Group today.</p> <p>If a severe financial crisis were to take place in the future, its impact on the business could depress consumption and materially affect Orange's results.</p> <p>Orange faces various internal and external human risk factors which could have a</p>

		<p>material impact on the Group's image, operations and results.</p> <p>2 <i>Legal risks</i></p> <p>Orange operates in highly regulated markets, where its flexibility to manage its business is limited. Orange's business activities and results could be materially affected by legislative, regulatory or government policy changes.</p> <p>Orange is continually involved in legal proceedings and disputes with regulatory authorities, competitors, government agencies or other parties. The outcome of such proceedings is generally uncertain and could have a material impact on its results or financial position.</p> <p>The profitability of certain investments and Orange's strategy in certain countries could be affected by disagreements with its partners in companies that it does not control.</p> <p>3 <i>Financial risks</i></p> <p><i>Liquidity risk</i></p> <p>Orange's results and outlook could be affected if the terms of access to capital markets become difficult.</p> <p><i>Interest rate risk</i></p> <p>Orange's business activities could be affected by interest rate fluctuations.</p> <p><i>Credit-rating risks</i></p> <p>If Orange's credit rating by the agencies is downgraded or placed under surveillance, or its outlook is revised, by rating agencies, its borrowing costs could increase and in certain circumstances the Company's access to the capital it needs could be limited.</p> <p><i>Risk of asset impairment</i></p> <p>Orange has booked substantial amounts of goodwill following its acquisitions. Under accounting standards, impairment losses have in the past and may again in the future be recorded against goodwill and other assets in Orange's accounts, including those of Orange SA, which could reduce its ability to pay dividends. Orange's results and financial position could also be affected by the downturn in equity markets in the event that it carries out an equity transaction involving some of its subsidiaries.</p> <p><i>Credit risk and/or counterparty risk on financial transactions</i></p> <p>The insolvency or deterioration in the financial position of a bank or other institution with which Orange has a financial agreement may have a material adverse effect on the Company and its financial position.</p> <p><i>Foreign exchange risk</i></p> <p>Orange's results and cash position are exposed to exchange rate fluctuations.</p>
D.3	Key risk specific to the Notes	<p>The acquisition or the holding of the Notes involves certain risks which should be assessed prior to any investment decision. While all of these risk factors are contingencies which may or may not occur, they may lead to a volatility and/or decrease in the market value of the Notes below the expectations (financial or otherwise) of the investors.</p> <p>Each prospective investor in the Notes should determine, based on its own independent review and, if any, professional advice, that its acquisition of Notes is fully consistent with its personal situation, financial needs and objectives, complies and is fully consistent with all investment policies and restrictions applicable to it and is a suitable investment for it, notwithstanding the clear and substantial risks inherent in investing</p>

in or holding the Notes.

These risks include in particular:

- the risk of modification of the conditions of the Notes by a General Meeting of Noteholders binding all Noteholders including those who did not attend or who voted in a manner contrary to the majority;
- risks relating to the secondary/trading market for the Notes;
- risks related to the lack of information in relation to Inflation Linked Notes;
- risks related to potential conflicts of interest;
- risks relating to exchange rate and currency;
- legal risks related to the purchase of the Notes;
- risks relating to the credit rating of the Notes;
- risks relating to credit ratings of the Notes;
- risks related to taxation;
- risks related to the proposed financial transactions tax;
- risks related to the market value of the Notes;
- the risk of a change in law; and
- risks related to French insolvency law.
- There are also risk factors relating to the structure of a particular issue of Notes which may adversely affect the value of the relevant Notes and in particular with respect to: the Notes subject to optional redemption of the Issuer, Fixed Rate Notes, Floating Rate Notes, Inflation Linked Notes, Fixed/Floating Rate Notes, Zero Coupon Notes and Notes denominated in RMB.

Issue specific summary:

The acquisition or the holding of the Notes involves certain risks which should be assessed prior to any investment decision. While all of these risk factors are contingencies which may or may not occur, they may lead to a volatility and/or decrease in the market value of the Notes below the expectations (financial or otherwise) of the investors.

Each prospective investor in the Notes should determine, based on its own independent review and, if any, professional advice, that its acquisition of Notes is fully consistent with its personal situation, financial needs and objectives, complies and is fully consistent with all investment policies and restrictions applicable to it and is a suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. The risk factors may relate to the Issuer, the Group or any of its subsidiaries.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors described below represent the main risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. The risks described below are not the only risks the Issuer, the Group or any of its subsidiaries face. Additional risks and uncertainties not currently known to the Issuer or that are currently believed to be immaterial could also have a material impact on its business operations. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision. In particular, investors should make their own assessment as to the risks associated with the Notes prior to investing in Notes issued under the Programme.

The order in which the following risks factors are presented is not an indication of the likelihood of their occurrence.

Terms defined herein shall have the same meaning as in the "Terms and Conditions of the Notes".

1. **Risk factors relating to the Issuer**

Operational risks

The rapid growth in broadband use (fixed or mobile) and the emergence of new network access technologies allow global players of the Internet sector the opportunity to establish a direct link with telecommunications operators' customers, thus depriving the latter, including Orange, of a share of their revenues and margins. If this phenomenon continues or intensifies, it could seriously impair the financial position and outlook of the operators.

The Group included in its *Essentials2020* plan the development of mobile financial services, concretized in 2016 by obtaining approvals for electronic money in Africa and by making an equity investment in Groupama Banque, then in the first half of 2017 through the launch of Orange Bank. These activities are likely to generate specific new risks or increase the impact of current risks. Orange may face risks linked to customer data, notably for their disclosure to third parties or inappropriate modification. Its liability may also be triggered or its reputation damaged by its Internet access and hosting provider activities.

Much of Orange's revenues is earned in mature markets where intense competition among operators to offer attractive prices and convergent offers could erode its profitability or market share.

Orange is exposed to the risk of an interruption of its networks and services following cyber attacks, sabotage, outages or human errors affecting critical hardware or software, malfunctioning of network equipment, failure of a key supplier or network saturation.

The technical infrastructure belonging to telecommunications operators is vulnerable to damage or interruptions caused by natural disasters, fires, wars, acts of terrorism, intentional damage, malicious acts, or other similar events.

The scope of Orange activities and the interconnection of the networks mean that the Group is exposed to the risk of numerous fraud, which could reduce revenues and margins and damage its image.

The Group could have a skills shortage in its activities due to numerous employee retirements or changing needs in the coming years.

In the context of consolidation in the European telecommunications sector, Orange is likely to make significant acquisitions that could lead to integration risks.

Orange is relying on sources of growth in the countries where the Group has invested. Investments already made may fail to bring the expected returns, and may generate unexpected commitments, and the Group could be faced with increased country risk, including from corruption. The Group's results, outlook and image could be impacted.

Telecommunications operators such as Orange may be affected by possible adverse health effects from exposure to electromagnetic fields from telecommunications equipment. The Group markets its products and services mainly under the Orange brand. The strategy of diversification into new businesses and geographic expansion to new territories is conducted under a single brand policy which is a major asset of the Group today.

If a severe financial crisis were to take place in future, its impact on the business could depress consumption and materially affect Orange's results.

Orange faces various internal and external human risk factors which could have a material impact on the Group's image, operations, and results.

Legal risks

Orange operates in highly regulated markets, where its flexibility to manage its business is limited. Orange's business activities and results could be materially affected by legislative, regulatory or government policy changes.

Orange is continually involved in legal proceedings and disputes with regulatory authorities, competitors, government agencies or other parties. The outcome of such proceedings is generally uncertain and could have a material impact on its results or financial position.

The profitability of certain investments and Orange's strategy in certain countries could be affected by disagreements with its partners in companies that it does not control.

Financial risks

Liquidity risk

Orange's results and outlook could be affected if the terms of access to capital markets become difficult.

Interest rate risk

Orange's business activities could be affected by interest rate fluctuations.

Credit-rating risks

If Orange's credit rating by the agencies is downgraded or placed under surveillance, or its outlook is revised by rating agencies, its borrowing costs could increase and in certain circumstances the Company's access to the capital it needs could be limited.

Risk of asset impairment

Orange has booked substantial amounts of goodwill following its acquisitions. Under accounting standards, impairment losses have in the past and may again in the future be recorded against goodwill and other assets in Orange's accounts, including those of Orange SA, which could reduce its ability to pay dividends. Orange's results and financial position could also be affected by the downturn in equity markets in the event that it carries out an equity transaction involving some of its subsidiaries.

Credit risk and/or counterparty risk on financial transactions

The insolvency or deterioration in the financial position of a bank or other institution with which Orange has a financial agreement may have a material adverse effect on the Company and its financial position.

Foreign exchange risk

Orange's results and cash position are exposed to exchange rate fluctuations.

Please refer to section 2.4 of the Orange 2016 Share Registration Document, pages 35 to 40.

2. Risk factors relating to the Notes

The following paragraphs describe the main risk factors that the Issuer believes are material to the Notes to be offered and/or listed and/or admitted to trading in order to assess the market risk associated with these Notes. Prospective investors should consult their own financial and legal advisers about risks associated with an investment in a particular Series of Notes and the suitability of investing in the Notes in light of their particular circumstances.

2.1 General risks relating to the Notes

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Independent review and advice

Each prospective investor of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with

all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

A prospective investor may not rely on the Issuer or the Dealer(s) or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Modification, waivers and substitution

The conditions of the Notes contain provisions for calling General Meetings of Noteholders to consider matters affecting their interests in general, including any proposal relating to the modification of the Terms and Conditions of the Notes subject to limitation provided by French law. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant General Meeting and Noteholders who voted in a manner contrary to the majority.

No active secondary/trading market for the Notes

Notes issued under the Programme will be new securities which may not be widely distributed and for which there may be no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although in relation to Notes to be admitted to trading on Euronext Paris and/or any other Regulated Market in the European Economic Area and/or offered to the public in the European Economic Area, the Final Terms of the Notes will be filed with the *Autorité des marchés financiers* in France and/or with the competent authority of the Regulated Market of the European Economic Area where the Notes will be listed and/or admitted to trading, there is no assurance that such admission to trading or offer to the public will occur, that any particular Tranche of Notes will be so listed and/or admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

Provision of information

None of the Issuer, the Dealer(s) or any of their respective affiliates make any representation as to the Inflation Indices (as defined hereafter). Any of such persons may have acquired, or during the term of the Notes may acquire, non-public information with respect to the Inflation Indices that is or may be material in the context of the Inflation Linked Notes. The issue of Inflation Linked Notes will not create any obligation on the part of any such persons to disclose to the Noteholders or any other party such information (whether or not confidential).

Potential conflicts of interest

All or some of the Dealers or their respective affiliates have and/or may in the future engage, in investment banking, commercial banking and other financial advisory and commercial dealings with the Issuer and its affiliates and in relation to securities issued by any entity of the Group. They have or may (i) engage in investment banking, trading or hedging activities including activities that may include prime brokerage business, financing transactions or entry into derivative transactions, (ii) act as underwriters in connection with offering of shares or other securities issued by any entity of the Group or (iii) act as financial advisers to the Issuer or other companies of the Group. In the context of these transactions, certain of such Dealers have or may hold shares or other securities issued by entities of the Group. Where applicable, they have or will receive customary fees and commissions for these transactions.

Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of Notes.

The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

For the purpose of this paragraph, the term "affiliate" also includes parent companies.

The Issuer may from time to time be engaged in transactions involving an index or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Potential conflicts of interest may arise between the calculation agent, if any, for a Tranche of Notes and the Noteholders, including with respect to certain discretionary determinations and judgements that such calculation agent may make pursuant to the Terms and Conditions that may influence the amount receivable upon redemption of the Notes.

Exchange rate and currency risk

Prospective investors of the Notes should be aware that an investment in the Notes may involve exchange rate risks. The reference assets or the Notes may be denominated in a currency other than the currency of the purchaser's home jurisdiction and/or the reference assets or the Notes may be denominated in a currency other than the currency in which a purchaser wishes to receive funds. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions) and the risk that authorities with jurisdiction over the investor's currency may impose or modify exchange controls. Fluctuations in exchange rates may affect the value of the Notes.

Government and monetary authorities have imposed from time to time, and may in the future impose, exchange controls that could affect exchange rates, as well as the availability of specified currency in which a Note is payable at the time of payment of interest and/or principal in respect of such Note.

Legality of purchase

Neither the Issuer, the Dealer(s) nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

Credit risk

An investment in the Notes involves taking credit risk on the Issuer. If the financial situation of the Issuer deteriorates, it may not be able to fulfil all or part of its payment obligations under the Notes, and investors may lose all or part of their investment.

Credit ratings

The Issuer and Orange's debt have credit ratings which are subject to reviews from time to time by the independent credit rating agencies which assign such credit ratings.

In addition, one or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes.

A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time. Any such revision, suspension or withdrawal of any such credit rating could adversely affect the value of the Notes.

The credit ratings of the Issuer are an assessment of its ability to pay its obligations, including those arising from the offered Notes. Consequently, actual or anticipated declines in the credit ratings of the Issuer may affect the market value of the relevant Notes.

There is no assurance that any such ratings will continue for any period of time or that they will not be reviewed, revised, suspended or withdrawn entirely by the relevant rating agencies as a result of changes in or unavailability of information or if, in the rating agencies' judgment, circumstances so warrant. Any rating agency other than Standard and Poor's Credit Market Services France, S.A.S., Moody's Investors Services Ltd or Fitch Ratings could seek to rate the Notes and if such unsolicited ratings are lower than the comparable ratings assigned to the Notes by Standard and Poor's Credit Market Services France, S.A.S., Moody's Investors Services Ltd or Fitch Ratings, such unsolicited ratings could have an adverse effect on the value of the Notes.

Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for the Notes. Potential investors are advised not to rely upon the tax summary contained in this Base Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the taxation sections of this Base Prospectus.

The proposed financial transactions tax (FTT)

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**Participating Member States**").

In March 2016, Estonia indicated that it will no longer be a Participating Member State.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation. Additional EU Member States may decide to participate. If the proposed Directive is adopted and implemented in local legislation, Noteholders may be exposed to increased transaction costs with respect to financial transactions carried out with respect to the Notes.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Market value of the Notes

The market value of the Notes may be affected by the creditworthiness of the Issuer and a number of additional factors, including the value of any inflation linked index, including, but not limited to, the volatility of such index, or market interest and yield rates and the time remaining to the maturity date.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, and factors affecting capital markets in general and the stock exchanges on which the Notes are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase

price paid by such purchaser. The historical level of the inflation linked index should not be taken as an indication of such index's future performance during the term of any Note.

Change in law

The Terms and Conditions of the Notes are based on French law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any change in the law or the official application or interpretation thereof, or the impact of any judicial decision, which would occur after the date of this Base Prospectus.

French Insolvency Law

Under French insolvency law, holders of debt securities are automatically grouped into a single assembly of holders (the "**Assembly**") in case of the opening in France of a safeguard procedure (*procédure de sauvegarde*), an accelerated safeguard procedure (*procédure de sauvegarde accélérée*), an accelerated financial safeguard procedure (*procédure de sauvegarde financière accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) of the Issuer, in order to defend their common interests.

The Assembly comprises holders of all debt securities issued by the Issuer (including the Notes), whether or not under a debt issuance programme and regardless of their governing law.

The Assembly deliberates on the draft safeguard plan (*projet de plan de sauvegarde*), draft accelerated safeguard plan (*projet de plan de sauvegarde accélérée*), draft accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*) or judicial reorganisation plan (*projet de plan de redressement*) applicable to the Issuer and may further agree to:

- increase the liabilities (*charges*) of holders of debt securities (including the Noteholders) by rescheduling and/or writing-off debts;
- establish an unequal treatment between holders of debt securities (including the Noteholders) as appropriate under the circumstances; and/or
- decide to convert debt securities (including the Notes) into shares.

Decisions will be taken by a two-third majority of the debt securities held by the holders expressing a vote at the Assembly. No quorum is required on convocation of the Assembly.

Hence, the provisions relating to the representation of Noteholders described in this Base Prospectus will not be applicable in these circumstances.

2.2 Risks related to the structure of a particular issue of Notes

The Programme allows for different types of Notes to be issued. Accordingly, each Tranche of Notes may carry varying risks for potential investors depending on the specific features of such Notes such as, inter alia, the provisions for computation of periodic interest payments, if any, redemption and issue price.

Notes subject to optional redemption by the Issuer

Redemption for tax reasons

In the event that, by reason of any change in French law or any change in the official application or interpretation of such law becoming effective after the Issue Date, the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for, or on account of, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by France, or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Terms and Conditions.

Issuer's call options

In addition, the Issuer has the option to redeem all of the Notes:

- under a call option as provided in Condition 7.2.1 of the Terms and Conditions if, in the case of any particular Tranche of Notes, the relevant Final Terms so specify; or
- under a make-whole call option as provided in Condition 7.2.2 of the Terms and Conditions unless in the case of any particular Tranche of Notes the Final Terms specify otherwise; or
- under a pre-maturity call option as provided in Condition 7.2.3 of the Terms and Conditions if, in the case of any particular Tranche of Notes, the relevant Final Terms so specify; or
- under a clean-up call option as provided in Condition 7.2.4 of the Terms and Conditions unless in the case of any particular Tranche of Notes the Final Terms specify otherwise.

In the event the Issuer redeems the Notes as provided in Condition 7 and as described above, if the market interest rates decrease, the risk to Noteholders that the Issuer will exercise its right of redemption increases. As a consequence, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. An investor generally may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time. During any period when the Issuer may elect to redeem the Notes, the market value of the Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

Exercise of the Call Option and the Make-Whole Redemption option by the Issuer in respect of certain Notes only may affect the liquidity of the Notes of the same Series in respect of which such option is not exercised

The Issuer has the option to partially exercise the Call Option and Make-Whole Redemption option with respect to a Series of Notes. Depending on the number of Notes of the same Series in respect of which any such option is not exercised, any trading market in respect of these Notes may become illiquid.

Fixed rate Notes

Investment in Notes which bear interest at a fixed rate involves the risk if market interest rates subsequently increase above the rate paid in the Fixed Rate Notes, this may adversely affect the value of the relevant Notes.

While the nominal interest rate of a Fixed Rate Note is determined during the term of such Note or within a given period of time, the market interest rate (the "**Market Interest Rate**") typically varies on a daily basis. As the Market Interest Rate changes, the price of the Note varies in the opposite direction. If the Market Interest Rate increases, the price of the Note typically decreases, until the yield of the Note equals approximately the Market Interest Rate. If the Market Interest Rate decreases, the price of a Fixed Rate Note typically increases, until the yield of the bond equals approximately the Market Interest Rate.

Floating rate Notes

The market value of the Floating rate Notes may be volatile

Floating rate Notes bear interest at a rate comprised of a reference rate and a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the relevant Final Terms) of the reference rate (e.g., every three (3) months or six (6) months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate Notes may be volatile if changes, particularly short term changes, to market interest rates evidenced by

the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate.

Investor will not be able to calculate in advance their rate of return on Floating rate Notes

A key difference between Floating rate Notes and Fixed rate Notes is that interest income on Floating rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definitive yield of Floating rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the Notes provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing.

Zero coupon Notes

Changes in market interest rates have a substantially stronger impact on the prices of zero coupon notes than on the prices of ordinary notes because the discounted issue prices are substantially below par. If market interest rates increase, zero coupon notes can suffer higher price losses than other notes having the same maturity and credit rating. Due to their leverage effect, zero coupon notes are a type of investment associated with a particularly high price risk.

Fixed/Floating rate Notes

Fixed/Floating rate Notes bear interest at a rate that will automatically, or that the Issuer may elect to, convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the fixed to floating rate Notes may be less favourable than then prevailing spreads on comparable floating rate Notes having the same reference rate. In addition, the new floating rate may be lower at any time than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Inflation Linked Notes

Inflation Linked Notes are debt securities which do not provide for predetermined redemption amounts and/or interest payments but amounts due in respect of principal and/or interest will be dependent upon the performance of an inflation index, which will be either (i) the consumer price index (excluding tobacco) for all households in metropolitan France (the "**CPI**") as calculated and published monthly by the Institut National de la Statistique et des Etudes Economiques ("**INSEE**"), or (ii) the harmonized index of consumer prices (excluding tobacco), or the relevant successor index, measuring the rate of inflation in the European Monetary Union (excluding tobacco) as calculated and published monthly by Eurostat (the "**HICP**"), or (iii) the United States non-seasonally adjusted consumer price index for all urban consumers (the "**US CPI**") as reported monthly by the Bureau of Labor Statistics of the U.S. Department of Labor (the "**BLS**") and published by Bloomberg page "CPURNSA" or any successor source (each an "**Inflation Index**" and together, the "**Inflation Indices**"). If the value of the relevant index calculated at any time prior to the maturity date is lower than the value of the relevant index at the time of the issue of the Notes or at the time of purchase by the Noteholders, then the amount of interest payable by the Issuer and/or the principal of Inflation Linked Notes may vary. Potential investors in Inflation Linked Notes should be aware that (i) they may receive no interest or only receive a limited amount of interest and (ii) they may lose all or a substantial portion of their investment.

Neither the current nor the historical levels of any of the Inflation Indices should be taken as an indication of future performance of such index during the term of any Inflation Linked Notes.

Inflation Linked Notes are not in any way sponsored, endorsed, sold or promoted by the INSEE, Eurostat or BLS, as the case may be, and the INSEE, Eurostat and BLS make no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the Inflation Indices and/or the figure at which such indices stand at any particular time. The Inflation Indices are determined, composed and calculated by the INSEE, Eurostat and BLS, as the case may be, without regard to the Issuer or the Notes. Neither the INSEE, Eurostat or BLS, as the case may be, is responsible for or has participated in the determination of the timing of, prices of, or quantities of the Inflation Linked Notes to be issued or in determination or calculation of the interest payable under such Notes. Neither the INSEE, Eurostat nor BLS has any obligation or liability in connection with the administration, marketing or trading of the Notes. The INSEE, Eurostat or BLS, as the case may be, has no responsibility for any calculation agency adjustment made for the indices.

Variable rate Notes with a multiplier or other leverage factor

Notes with a multiplier or other leverage factor can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features.

Renminbi-denominated Notes

Notes denominated in RMB ("**RMB Notes**") may be issued under the Programme. RMB Notes contain particular risks for potential investors, including the following:

Renminbi is not freely convertible; there are significant restrictions on remittance of Renminbi into and outside the PRC

Renminbi is not freely convertible at the present. Despite a movement towards liberalization of cross-border Renminbi remittance in current account activities and the permission for certain participating banks in Hong Kong, Singapore and Taiwan to engage in the settlement of current account trade transactions in Renminbi, there is no assurance that the PRC government will continue to liberalize control over the cross-border Renminbi remittance in the future or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC.

Holders of Notes denominated in Renminbi may be required to provide certifications and other information (including Renminbi account information) in order to allow such holder to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in Hong Kong, Singapore and Taiwan.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of RMB Notes and the Issuer's ability to source Renminbi outside the PRC to service such RMB Notes

As a result of the restrictions by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited.

While the People's Bank of China has established Renminbi clearing and settlement mechanisms for participating banks in Hong Kong, Singapore and Taiwan through settlement agreements on the clearing of Renminbi business (the "**Settlement Agreements**") with Bank of China (Hong Kong) Limited in Hong Kong, Industrial and Commercial Bank of China, Singapore Branch in Singapore and Bank of China, Taipei Branch in Taiwan, the People's Bank of China has provided several restrictions over the business scope of offshore participating banks in respect of cross-border Renminbi settlement (e.g. related to direct transactions with PRC enterprises), which further limits the availability of Renminbi that participating banks can utilise for conversion services for their clients.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange.

There is no assurance that new PRC regulations will not be promulgated or the Settlement Agreements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of its RMB Notes. To the extent the Issuer is required to source Renminbi in the offshore market to service its RMB Notes, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

RMB Notes issued under the Programme may only be held through an account with Euroclear France or with an Account Holder which itself has an account with Euroclear France

Noteholders may only hold RMB Notes if they have an account with Euroclear France or maintained with an Account Holder which itself has an account with Euroclear France (which includes Euroclear and Clearstream, Luxembourg).

Investment in RMB Notes is subject to exchange rate risks

The value of Renminbi against the Euro, the U.S. dollar and other foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. All payments of interest and principal with respect to RMB Notes will be made in Renminbi. As a result, the value of these Renminbi payments in Euro or U.S. dollar terms may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the Euro, the U.S. dollar or other foreign currencies, the value of investment in Euro, U.S. dollar or other applicable foreign currency terms will decline.

Government and monetary authorities have imposed or modified from time to time, and may in the future impose or modify exchange controls that could affect exchange rates.

Investment in RMB Notes is also subject to interest rate risks

The PRC government has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. Notes denominated in RMB will generally carry a fixed interest rate. Consequently, the trading price of such Notes will vary with fluctuations in Renminbi interest rates. If a Noteholder tries to sell such Notes before their maturity, he may receive an offer that is less than his original investment.

Developments in other markets may adversely affect the market price of any RMB Notes

The market price of RMB Notes may be adversely affected by declines in the international financial markets and world economic conditions. The market for Chinese securities is, to varying degrees, influenced by economic and market conditions in other markets, especially those in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can affect the securities markets and the securities of issuers in other countries, including the PRC. Since the sub-prime mortgage crisis in 2008, the international financial markets have experienced significant volatility. Should similar developments occur in the international financial markets in the future, the market price of RMB Notes could be adversely affected.

Gains on the transfer of the Renminbi Notes may become subject to income taxes under PRC tax laws

Under the PRC Enterprise Income Tax Law and the implementing regulations which took effect on 1 January 2008, any gain realised on the transfer of the Renminbi Notes by non-resident enterprise holders may be subject to enterprise income tax if such gain is regarded as income derived from sources within the PRC. However, there remains uncertainty as to whether the gain realised from the transfer of the Renminbi Notes would be treated as income derived from sources within the PRC and be subject to PRC tax. This will depend on how the PRC tax authorities interpret, apply or enforce the PRC Enterprise Income Tax Law and its implementation rules. Therefore, if non-resident enterprise holders are required to pay PRC income tax on gains on the transfer of the Renminbi Notes (such enterprise income tax is currently levied at the rate of 10 per cent. of the gross proceeds, unless there is an applicable tax treaty between PRC and the jurisdiction in which such non-resident enterprise holders of the Renminbi Notes reside that reduces or exempts the relevant tax), the value of their investment in the Renminbi Notes may be materially and adversely affected.

Risk of change in Government Support and Regulatory Regime

RMB Notes issuance is subject to laws and regulations of Hong Kong as the principal financial center for RMB Notes. The PRC Government currently views Hong Kong as one of the key offshore Renminbi-denominated debt instrument centers and has established a cooperative relationship with Hong Kong's local government to develop the Renminbi-denominated debt instrument market. There can be no assurance that the PRC's Government will continue to encourage issuance of RMB-denominated debt instrument outside of mainland China and any change in the PRC Government's policy or the regulatory regime governing the issuance of Renminbi-denominated debt instruments may adversely affect the Renminbi Notes.

Any such Non-exempt Offers are not made on behalf of the Issuer or by any of the Dealers or Authorised Offerors and none of the Issuer or any of the Dealers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers.

An Investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocation and settlement arrangements (the "Terms and Conditions of the Non-exempt Offer"). The Issuer will not be a party to any such arrangements with Investors (other than Dealers) in connection with the offer or sale of the Notes and, accordingly, this Base Prospectus and any Final Terms will not contain such information. The Terms and Conditions of the Non-exempt Offer shall be published by that Authorised Offeror on its website at the relevant time. None of the Issuer, any of the Dealers or other Authorised Offerors has any responsibility or liability for such information.

In the case of any Tranche of Notes which are being (a) offered to the public in a Member State (other than pursuant to one or more of the exemptions set out in Article 3.2 of the Prospectus Directive) and/or (b) admitted to trading on a regulated market in a Member State, the relevant Final Terms shall not amend or replace any information in this Base Prospectus. Subject to this, to the extent permitted by applicable law and/or regulation, the Final Terms in respect of any Tranche of Notes may supplement any information in this Base Prospectus.

Non-incorporated parts of the 2016 Base Prospectus are not relevant for the investors.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time the Issuer shall be required to prepare a supplement to this Base Prospectus pursuant to the provisions of Article 212-25 of the *Règlement général de l'AMF* (AMF General Regulations) implementing Article 16 of the Prospectus Directive, following the occurrence of a significant new factor, a material mistake or inaccuracy relating to the information included or incorporated by reference in this Base Prospectus (including the "Terms and Conditions of the Notes") which is capable of affecting the assessment of any Notes, the Issuer will prepare and make available an appropriate supplement to this Base Prospectus, which, in respect of any subsequent issue of Notes to be admitted to trading on Euronext Paris or on a Regulated Market, shall constitute a supplement to the Base Prospectus for the purpose of the relevant provisions of the *Règlement général de l'AMF* (AMF General Regulations) and the Prospectus Directive.

In accordance with and pursuant to Article 16.2 of the Prospectus Directive, where the Notes are offered to the public, investors who have already agreed to purchase or subscribe for Notes before any supplement is published have the right, exercisable within two working days after the publication of such supplement, to withdraw their acceptance provided that the new factor, mistake or inaccuracy referred to in Article 16.1 of the Prospectus Directive arose before the final closing of the offer to the public and the delivery of the Notes. The period may be extended by the Issuer or, if agreed to by the Issuer, the relevant Authorised Offeror(s). The final date of the right of withdrawal shall be stated in the supplement.

- 2.3.3 Except as ordered by a court of competent jurisdiction or as required by law, the holder of any Note, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

2.4 **Redenomination:**

- 2.4.1 The Issuer may (if so specified in the relevant Final Terms), on any Interest Payment Date, without the consent of the holder of any Note, Coupon or Talon, by giving at least thirty (30) calendar day's notice in accordance with Condition 15 and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the single currency of the European Economic and Monetary Union, or events have occurred which have substantially the same effects, redenominate all, but not some only, of the Notes of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) set out in the relevant Final Terms accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the "**Redenomination Date**".
- 2.4.2 The redenomination of the Notes pursuant to Condition 2.4.1 shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to applicable regulations of the Treaty and rounding the resultant figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Notes so determined shall be notified to Noteholders in accordance with Condition 15. Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euro on the Redenomination Date in the manner notified to Noteholders by the Issuer.
- 2.4.3 Upon redenomination of the Notes, any reference in the relevant Final Terms to the relevant national currency shall be construed as a reference to Euro.
- 2.4.4 The Issuer may, with the prior approval of the Redenomination Agent and the Consolidation Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 14, without the consent of the holder of any Note, Coupon or Talon but taking into account market practice in respect of redenominated euromarket debt obligations, make any changes or additions to these Conditions or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre designation, interest accrual basis or Reference Rate specification) which it believes are not

prejudicial to the interests of the relevant Noteholders. Any such changes or additions shall, in the absence of manifest error, be binding on the holders of Notes, Coupons and Talons and shall be notified to them in accordance with Condition 15 as soon as practicable thereafter.

- 2.4.5 Neither the Issuer nor any Paying Agent shall be liable to the holder of any Note, Coupon or Talon or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.
- 2.5 **Method of Issue:** The Notes will be issued on a syndicated or non-syndicated basis. The Notes will be issued in series (each a "**Series**") having one or more issue dates and on terms otherwise identical (or identical save as to the issue date, issue price, first payment of interest and nominal amount of the Tranche), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms of each Tranche (which, save in respect of the issue date, issue price, first payment of interest and nominal amount of the Tranche, will be identical to the terms of other Tranches of the same Series) will be set out in the relevant Final Terms.

3. **Conversion and exchanges of Notes**

3.1 **Dematerialised Notes:**

- 3.1.1 Dematerialised Bearer Notes may not be converted into Dematerialised Registered Notes, whether in fully registered form or in administered registered form.
- 3.1.2 Dematerialised Registered Notes may not be converted into Dematerialised Bearer Notes.
- 3.1.3 Dematerialised Fully Registered Notes may, at the option of the Noteholder, be converted into Dematerialised Administered Registered Notes, and vice versa. The exercise of any such option by the relevant Noteholder shall be made in accordance with article R.211-4 of the Code. Any such conversion shall be effected at the cost of such Noteholder.
- 3.2 **Materialised Notes:** Materialised Bearer Notes of one Specified Denomination may not be exchanged for Materialised Bearer Notes of another Specified Denomination.

4. **Status of the Notes**

The Notes and, where applicable, any Coupons relating to them constitute direct, unconditional, unsecured (subject to the provisions of Condition 5) and unsubordinated obligations of the Issuer and shall rank *pari passu* and without any preference among themselves and subject to such exceptions as are from time to time mandatory under French law, equally with all other unsecured and unsubordinated obligations of the Issuer, from time to time outstanding.

5. **Negative pledge**

The Issuer undertakes that so long as any of the Notes remains outstanding it will not, and shall ensure that none of its Principal Subsidiaries will, create or permit to subsist any mortgage, charge, pledge, lien or other form of encumbrance or security interest (each a "**Security Interest**") upon the whole or any part of its/their respective assets or revenues of whatever nature present or future, to secure any Indebtedness, or any guarantee of or indemnity in respect of any Indebtedness, unless at the same time or prior thereto the Issuer's obligations under the Notes and Coupons are secured equally and rateably therewith or benefit from a Security Interest or guarantee or indemnity in substantially identical terms thereto to the extent permitted by French or other applicable law or regulation.

6. **Interest and other calculations**

6.1 **Fixed Rate Notes (other than Fixed Rate Notes denominated in RMB):**

Each Fixed Rate Note bears interest on its outstanding nominal amount from (and including) the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of

Interest, such interest being payable in arrear on each Interest Payment Date except as otherwise provided in the relevant Final Terms.

If a Fixed Coupon Amount or a Broken Amount is specified in the relevant Final Terms, the amount of interest payable on each Interest Payment Date will amount to the Fixed Coupon Amount or, if applicable, the Broken Amount so specified and in the case of the Broken Amount will be payable on the particular Interest Payment Date(s) specified in the relevant Final Terms.

6.2 Floating Rate Notes:

6.2.1 *Interest Payment Dates:* Each Floating Rate Note bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date except as otherwise provided in the relevant Final Terms. The Interest Payment Date(s) shall be defined in the relevant Final Terms as Specified Interest Payment Dates or, if no Specified Interest Payment Date is so defined, shall consist of each date which falls the number of months or other period defined as the Interest Period in the relevant Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

6.2.2 *Business Day Convention:* If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which case (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

6.2.3 *Rate of Interest for Floating Rate Notes:* The Rate of Interest in respect of Floating Rate Notes for each Interest Period shall be determined in the manner specified in the relevant Final Terms and the provisions below relating to either FBF Determination, ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the relevant Final Terms.

(a) FBF Determination for Floating Rate Notes:

Where FBF Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant FBF Rate plus or minus (as indicated in the relevant Final Terms) the Margin (if any). For the purposes of this sub-paragraph (a), "**FBF Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent for a Transaction under the terms of an agreement incorporating the FBF Definitions and under which:

- (i) the Floating Rate is as specified in the relevant Final Terms; and
- (ii) the relevant Floating Rate Determination Date is the first calendar day of that Interest Period unless otherwise specified in the relevant Final Terms.

For the purposes of this sub-paragraph (a), "**Floating Rate**" (*Taux Variable*), "**Floating Rate Determination Date**" (*Date de Détermination du Taux Variable*) and "**Transaction**" (*Transaction*) have the meanings given to those terms in the FBF Definitions.

(b) ISDA Determination for Floating Rate Notes:

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the relevant Final Terms) the Margin (if any). For the purposes of this sub-paragraph (b), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent for a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option is as specified in the relevant Final Terms;
- (ii) the designated Maturity is a period specified in the relevant Final Terms; and
- (iii) the relevant Reset Date is the first calendar day of that Interest Period unless otherwise specified in the relevant Final Terms.

For the purposes of this sub-paragraph (b), "**Floating Rate**", "**Floating Rate Option**", "**designated Maturity**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

(c) Screen Rate Determination for Floating Rate Notes:

- (i) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

(A) the offered quotation; or

(B) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at either 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR) on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified hereon as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as specified in the relevant Final Terms.

- (ii) if the Relevant Screen Page is not available or, if sub-paragraph (i)(A) applies and no such offered quotation appears on the Relevant Screen Page, or, if sub-paragraph (i)(B) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case at the time specified above, subject as provided below, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), or if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be

the arithmetic mean of such offered quotations as determined by the Calculation Agent; and

- (iii) if paragraph (ii) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time), on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period).
- (iv) where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being TEC 10, the Rate of Interest for each Interest Period will be, subject as provided below, the offered quotation (expressed as a percentage rate per annum) for the EUR-TEC10-CNO¹, calculated by the *Comité de Normalisation Obligatoire* ("CNO"), which appears on the Relevant Screen Page, being the caption "TEC10" on the Reuters Screen CNOTEC10 Page or any successor page, as at 10.00 a.m. Paris time on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent.

If, on any Interest Determination Date, such rate does not appear on Reuters Screen CNOTEC10 Page or any successor page in respect of EUR-TEC10-CNO, it shall be determined by the Calculation Agent on the basis of the mid-market prices for each of the two reference OAT (*Obligation Assimilable du Trésor*) which would have been used by the *Comité de*

¹ All potential users of the EUR-TEC10-CNO must first enter into a trademark licence agreement available from the CNO.

Normalisation Obligataire for the calculation of the relevant rate, quoted in each case by five *Spécialistes en Valeurs du Trésor* at approximately 10:00 a.m. Paris time on the Interest Determination Date in question.

The Calculation Agent will request each *Spécialiste en Valeurs du Trésor* to provide a quotation of its price.

EUR-TEC10-CNO will be the redemption yield of the arithmetic mean of such prices as determined by the Calculation Agent after discarding the highest and lowest of such quotations. The above mentioned redemption yield shall be determined by the Calculation Agent in accordance with the formula that would have been used by the *Comité de Normalisation Obligataire* for the determination of the relevant rate.

For information purposes only, the EUR-TEC10-CNO, established in April 1996, is the percentage yield (rounded to the nearest second decimal point, 0.005 per cent. being rounded upwards) of a notional 10 year French Treasury Bond (*Obligation Assimilable du Trésor*, "OAT") corresponding to the linear interpolation between the yield to maturity of the two actual OATs (the "Reference OATs") whose periods to maturity are closest in duration to the notional 10 year OAT, one Reference OAT's duration being of less than 10 years and the other Reference OAT's duration being greater than 10 years.

- (v) where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being CMS Rate, the Rate of Interest for each Interest Period will be, subject as provided below, be determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

If the Relevant Screen Page is not available, the Calculation Agent shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Specified Time on the Interest Determination Date in question. If at least three of the CMS Reference Banks provide the Calculation Agent with such quotations, the CMS Rate for such Interest Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest and the lowest quotation (or, in the event of equality, one of the lowest).

If on any Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations, as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

With:

CMS Rate shall mean the applicable swap rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as at the Specified Time on the Interest Determination Date in question, all as determined by the Calculation Agent.

CMS Reference Banks means (i) where the Reference Currency is Euro, the principal office of five leading swap dealers in the inter-bank market, (ii)

where the Reference Currency is Sterling, the principal London office of five leading swap dealers in the London inter-bank market, (iii) where the Reference Currency is United States dollars, the principal New York City office of five leading swap dealers in the New York City inter-bank market, or (iv) in the case of any other Reference Currency, the principal relevant Financial Centre office of five leading swap dealers in the relevant Financial Centre inter-bank market, in each case selected by the Calculation Agent.

Relevant Swap Rate means:

- (a) where the Reference Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions), with a designated maturity determined by the Calculation Agent by reference to standard market practice and/or the ISDA Definitions;
- (b) where the Reference Currency is Sterling, the mid-market semi-annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the semi-annual fixed leg, calculated on an Actual/365 (Fixed) day count basis, of a fixed-for-floating Sterling interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/365 (Fixed) day count basis, is equivalent (A) if the Designated Maturity is greater than one year, to GBP-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of six months or (B) if the Designated Maturity is one year or less, to GBP-LIBOR-BBA with a designated maturity of three months;
- (c) where the Reference Currency is United States dollars, the mid-market semi-annual swap rate determined on the basis of the mean of the bid and offered rates for the semi-annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating United States dollar interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to USD-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of three months; and
- (d) where the Reference Currency is any other currency or if the relevant Final Terms specify otherwise, the mid-market swap rate as determined in accordance with the applicable Final Terms.

Representative Amount means an amount that is representative for a single transaction in the relevant market at the relevant time.

Designated Maturity, Margin, Specified Time, Relevant Currency and Relevant Screen Page shall have the meaning given to those terms in the applicable Final Terms.

6.2.4 Rate of Interest for Inflation Linked Notes:

(a) Consumer Price Index (CPI).

Where the consumer price index (excluding tobacco) for all households in metropolitan France, as calculated and published by the *Institut National de la Statistique et des Etudes Economiques* (the "INSEE") ("CPI") is specified as the Index in the relevant Final Terms, this Condition 6.2.4(a) shall apply. Terms defined herein shall have the meanings set out below only when this Condition 6.2.4(a) shall apply.

The Rate of Interest in respect of Inflation Linked Notes indexed to the CPI (the "**CPI Linked Interest**") will be determined by the Calculation Agent on the following basis:

- (i) On the fifth Business Day before each Interest Payment Date (an "**Interest Determination Date**") the Calculation Agent will calculate the Inflation Index Ratio. For the purpose of this Condition 6.2.4(a), the "**Inflation Index Ratio**" or "**IIR**" is the ratio between (i) the CPI Daily Inflation Reference Index (as defined below) applicable upon any Interest Payment Date or the redemption date, as the case may be and (ii) the base reference defined as the CPI Daily Inflation Reference Index (as defined below) applicable on the date specified in the applicable Final Terms the "**Base Reference**"). Notwithstanding Condition 6.6.3, the IIR will be rounded if necessary to five significant figures (with halves being rounded up).

"**CPI Daily Inflation Reference Index**" means (A) in relation to the first calendar day of any given month, the CPI Monthly Reference Index of the third month preceding such month, and (B) in relation to a calendar day (D) (other than the first calendar day) in any given month (M), the linear interpolation of the CPI Monthly Reference Index pertaining respectively to the third month preceding such month (M – 3) and the second month preceding such month (M – 2) calculated in accordance with the following formula:

CPI Daily Inflation Reference Index=

$$\text{CPI Monthly Reference Index}_{M-3} + \frac{D-1}{ND_M} \times (\text{CPI Monthly Reference Index}_{M-2} - \text{CPI Monthly Reference Index}_{M-3})$$

With:

"**NDM**:" number of calendar days in the relevant month M and, in the case of payment of principal and interest, shall be equal to 31;

"**D**": actual calendar day of payment in the relevant month M and, in the case of payment of principal and interest, shall be equal to 25;

"**CPI Monthly Reference Index M-2**": price index of month M – 2;

"**CPI Monthly Reference Index M-3**": price index of month M – 3.

Notwithstanding Condition 6.6.3, the CPI Daily Inflation Reference Index will be rounded if necessary to five significant figures (with halves being rounded up).

For information purposes, such CPI Daily Inflation Reference Index appears on the Agence Française du Trésor Reuters page OATINFLATION01 or on

Bloomberg TRESOR <GO> pages and on the website www.aft.gouv.fr. In case of doubt in the interpretation of the methods used to calculate the Inflation Index Ratio, such methods shall be interpreted by reference to the procedures selected by the French Treasury (*Trésor*) for its *obligations assimilables du Trésor indexées sur l'inflation*.

"**CPI Monthly Reference Index**" refers to the definitive consumer price index (excluding tobacco) for all households in metropolitan France, as calculated and published monthly by the INSEE as such index may be adjusted or replaced from time to time as provided herein.

- (ii) The calculation method described below is based on the recommendation issued by the French Bond Association (*Comité de Normalisation Obligataire* – www.cnofrance.org) in its December 2010 Paper entitled "Inflation Indexed Notes" (*Obligations et autres instruments de taux d'intérêt en euro, Normes et usages des marchés de capitaux – Chapitre II: Les obligations indexées sur l'inflation*). In the event of any conflict between the calculation method provided below and the calculation method provided by the Bond Association (*Comité de Normalisation Obligataire*), the calculation method provided by the Bond Association (*Comité de Normalisation Obligataire*) shall prevail.

The CPI Linked Interest applicable from time to time for each Interest Period (as specified in the relevant Final Terms) will be equal to the rate per annum specified in the relevant Final Terms multiplied by the Inflation Index Ratio.

- (iii)
 - (A) If the CPI Monthly Reference Index is not published in a timely manner, a substitute CPI Monthly Reference Index (the "**Substitute CPI Monthly Reference Index**") shall be determined by the Calculation Agent in accordance with the following provisions:
 - (x) If a provisional CPI Monthly Reference Index (*indice provisoire*) has already been published, such index shall automatically be used as the Substitute CPI Monthly Reference Index. Such provisional CPI Monthly Reference Index would be published under the heading "*indice de substitution*". Once the definitive CPI Monthly Reference Index is released, it would automatically apply from the calendar day following its release to all calculations taking place from this date.
 - (y) If no provisional CPI Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

Substitute CPI Monthly Reference Index_M=

$$\text{CPI Monthly Reference Index}_{M-1} \times \frac{\text{CPI Monthly Reference Index}_{M-1}^{\frac{1}{12}}}{\text{CPI Monthly Reference Index}_{M-13}}$$

- (B) In the event INSEE decides to proceed with one or more base changes for the purpose of calculating the CPI Monthly Reference Index, the two CPI Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the

December CPI Monthly Reference Index of the last year of joint publications, which corresponds to the CPI Daily Inflation Reference Index for 1st March of the following year. Such chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{CPI Monthly Reference Index}_{\text{pertaining to December calculated on the new basis}}}{\text{CPI Monthly Reference Index}_{\text{pertaining to December calculated on the previous basis}}}$$

Such that:

$$\text{CPI Monthly Reference Index}_{\text{New Basis}}^{\text{Date D}} = \text{CPI Monthly Reference Index}_{\text{Previous Basis}}^{\text{Date D}} \times \text{Key}$$

(b) Harmonised Index of Consumer Prices (HICP)

(I) *OPTION 1*

Where the harmonised index of consumer prices (excluding tobacco) measuring the rate of inflation in the European Monetary Union (excluding tobacco) as calculated and published monthly by Eurostat (the "**HICP - OPTION 1**") is specified as the Index in the relevant Final Terms, this Condition 6.2.4(b)(I) shall apply. Terms defined herein shall have the meanings set out below only when this Condition 6.2.4(b)(I) shall apply.

The Rate of Interest in respect of Inflation Linked Notes indexed to the HICP (the "**HICP Linked Interest**") will be determined by the Calculation Agent on the following basis:

- (i) On the fifth Business Day before each Interest Payment Date (an "**Interest Determination Date**") the Calculation Agent will calculate the Inflation Index Ratio

For the purpose of this Condition 6.2.4(b)(I), the "**Inflation Index Ratio**" or "**IIR**" is the ratio between (i) the HICP Daily Inflation Reference Index (as defined below) applicable upon any Interest Payment Date or the redemption date, as the case may be and (ii) the base reference defined as the HICP Daily Inflation Reference Index (as defined below) applicable on the date specified in the applicable Final Terms (the "**Base Reference**"). Notwithstanding Condition 6.6.3, the IIR will be rounded if necessary to five significant figures (with halves being rounded up).

"**HICP Daily Inflation Reference Index**" means (A) in relation to the first calendar day of any given month, the HICP Monthly Reference Index of the third month preceding such month, and (B) in relation to a calendar day (D) (other than the first calendar day) in any given month (M), the linear interpolation of the HICP Monthly Reference Index pertaining respectively to the third month preceding such month (M - 3) and the second month preceding such month (M - 2) calculated in accordance with the following formula:

HICP Daily Inflation Reference Index =

$$\text{HICP Monthly Reference Index}_{M-3} + \frac{D-1}{\text{ND}_M} \times (\text{HICP Monthly Reference Index}_{M-2} - \text{HICP Monthly Reference Index}_{M-3})$$

With:

"**NDM**": number of calendar days in the relevant month M and, in the case of payment of principal and interest, shall be equal to 31;

"D": actual calendar day of payment in the relevant month M and, in the case of payment of principal and interest, shall be equal to 25;

"HICP Monthly Reference Index M-2": price index of month M – 2;

"HICP Monthly Reference Index M-3": price index of month M – 3.

Notwithstanding Condition 6.6.3, the HICP Daily Inflation Reference Index will be rounded if necessary to five significant figures (with halves being rounded up).

For information purposes, such HICP Daily Inflation Reference Index appears on the *Agence France Trésor* Reuters page OATEI01, on the website www.aft.gouv.fr. and on Bloomberg page TRESOR.

"HICP Monthly Reference Index" refers to the harmonised index of consumer prices (excluding tobacco) measuring the rate of inflation in the European Monetary Union (excluding tobacco) as calculated and published by Eurostat as such index may be adjusted or replaced from time to time as provided herein.

(ii) The HICP Linked Interest applicable from time to time for each Interest Period (as specified in the relevant Final Terms) will be equal to the rate per annum specified in the relevant Final Terms multiplied by the Inflation Index Ratio (as defined above).

(iii)

(A) If the HICP Monthly Reference Index is not published in a timely manner, a substitute HICP Monthly Reference Index (the "**Substitute HICP Monthly Reference Index**") shall be determined by the Calculation Agent in accordance with the following provisions:

(x) If a provisional HICP Monthly Reference Index has already been published by Eurostat, such index shall automatically be used as the Substitute HICP Monthly Reference Index. Once the definitive HICP Monthly Reference Index is released, it would automatically apply from the calendar day following its release to all calculations taking place from this date.

(y) If no provisional HICP Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

Substitute HICP Monthly Reference Index_M =

$$\text{HICP Monthly Reference Index}_{M-1} \times \frac{\text{HICP Monthly Reference Index}_{M-1}^{\frac{1}{12}}}{\text{HICP Monthly Reference Index}_{M-13}}$$

(B) In the event Eurostat decides to proceed with one or more base changes for the purpose of calculating the HICP Monthly Reference Index, the two HICP Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the December HICP Monthly Reference Index of the last year of joint publications, which corresponds to the HICP Daily Inflation Reference Index for 1st March of the following year. Such

chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{HICP Monthly Reference Index}_{\text{pertaining to December calculated on the new basis}}}{\text{HICP Monthly Reference Index}_{\text{pertaining to December calculated on the previous basis}}}$$

Such that:

$$\text{HICP Monthly Reference Index}_{\text{Date D New Basis}} = \text{HICP Monthly Reference Index}_{\text{Date D Previous Basis}} \times \text{Key}$$

(II) *OPTION 2*

Where the harmonised index of consumer prices (excluding tobacco) measuring the rate of inflation in the European Monetary Union (excluding tobacco) as calculated and published monthly by Eurostat (the "**HICP - OPTION 2**") is specified as the Index in the relevant Final Terms, this Condition 6.2.4(b)(II) shall apply. Terms defined herein shall have the meanings set out below only when this Condition 6.2.4(b)(II) shall apply.

(i) Calculation of Rate of Interest

The Rate of Interest applicable in respect of each Interest Period will be a rate, expressed as a percentage (rounded, if applicable, to the nearest fifth decimal place, 0.000005 being rounded upwards) determined by the Calculation Agent on the relevant Interest Determination Date in accordance with the following formula:

$$3.00\% \times \text{Inflation Index Ratio}$$

where,

"Base Daily Inflation Reference" means the Daily Inflation Reference as determined by the Calculation Agent in respect of 04 June 2008 (being 108.524);

"Business Day" means a day on which the TARGET 2 System is operating;

"Daily Inflation Reference" means, in respect of any date, the value of the Index for such date as determined by the Calculation Agent on the relevant Index Determination Date in accordance with the provisions for the calculation of the Daily Inflation Reference as set out in paragraph 3 below and appearing on Reuters page "OATEI01" or on Bloomberg page "TRES3" or such replacement page as selected by the Calculation Agent;

"Eurostat" means the statistical office of the European Communities in Luxembourg;

"Index" means, subject to the provisions of paragraph 4 below, the Harmonised Index of Consumer Prices (HICP) excluding tobacco, for the Euro zone as calculated by Eurostat;

"Index Determination Date" means, in respect of any date for which the Daily Inflation Reference is required to be determined, the fifth Business Day prior to such date;

"Inflation Index Ratio" means the ratio between (i) the Daily Inflation Reference in respect of the relevant Interest Payment Date, Maturity Date or Early Redemption Date, as the case may be, and (ii) the Base Daily Inflation

Reference. The Inflation Index Ratio will be rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards;

"Interest Determination Date" means the fifth Business Day prior to the relevant Interest Payment Date.

For the avoidance of doubt, interest on overdue amounts in respect of the Notes (after the Maturity Date or, as the case may be, the relevant Early Redemption Date) shall accrue at a rate per annum equal to a rate per annum calculated by the Calculation Agent on the basis, *mutatis mutandis*, of the provisions of this paragraph 2 and Condition 6.5 except that, for such purposes, the relevant Interest Determination Date shall be deemed to be the fifth Business Day prior to the Relevant Date.

(ii) Calculation of Daily Inflation Reference

The Daily Inflation Reference ("**Id**") for day d of month m is the linear interpolation of the Index in respect of months m-3 and m-2, expressed relatively to the same basis of 100 (or such other revised basis as may be adopted from time to time by Eurostat).

Hence:

$$I_d = HICP_{m-3} + \frac{nbd}{q_m} \times (HICP_{m-2} - HICP_{m-3})$$

where:

HICP_{m-2}: Consumer Price Index for month m-2

HICP_{m-3}: Consumer Price Index for month m-3

nbd: Actual number of days between date d (included) and the first day of month m (excluded);

and

q_m: Actual number of days in month m.

(iii) Fall-back provisions

Change in the Sponsor of the Index

If the Index is not calculated and/or disseminated by Eurostat, but is calculated and/or disseminated by another relevant authority approved by the European Union (the "**New Sponsor**"), then the Index as so calculated and/or disseminated by the New Sponsor shall be used for the purpose of calculating (i) the relevant Rate of Interest and/or (ii) the Final Redemption Amount or, as the case may be, the Early Redemption Amount, in respect of the Notes.

Successor Index

If the Index is replaced by a successor index using the same or a substantially similar formula and method of calculation as used in the calculation of the Index and such successor index is reasonably acceptable to the Calculation Agent, the relevant Index for the purpose of calculating (i)

the applicable Rate of Interest and/or (ii) the Final Redemption Amount or, as the case may be, the Early Redemption Amount, in respect of the Notes, shall be the successor index (the "**Successor Index**").

Substitute Index

If the Index is not published for a given month, for any reason, or ceases to be published, for any reason, the Calculation Agent shall, for any month where the Index is not published, either find a Successor Index or determine, in consultation with the Issuer, a substitute index (the "**Substitute Index**"), such substitute index comprising as far as practicable the same components as the Index, which shall be adopted for the Notes.

Changes in calculation method or basis of the Index

In the event that Eurostat or, as the case may be, any New Sponsor changes the base of the Index at any time while any of the Notes are still outstanding, then for the purpose of calculating (i) the relevant Rate of Interest and/or (ii) the Final Redemption Amount, or, as the case may be, the Early Redemption Amount, in respect of the Notes, the value of the Index following such change in base shall be determined in accordance with the methodology published by Eurostat or, as the case may be, the relevant New Sponsor following such change. In the event that no such methodology is published, then the Calculation Agent shall make such calculation as it, in its reasonable discretion, deems appropriate to determine the relevant Index.

(c) United States Consumer Price Index (US CPI).

Where the United States Consumer Price Index ("**US CPI**") is specified as the Index in the relevant Final Terms, this Condition 6.2.4(c) shall apply. Terms defined herein shall have the meanings set out below only when this Condition Condition 6.2.4(c) shall apply.

The US CPI is the non-seasonally adjusted U.S. City Average All Items Consumer Price Index for All Urban Consumers, reported monthly by the Bureau of Labor Statistics of the U.S. Labor Department (the "**BLS**") and published on Bloomberg page "CPURNSA" or any successor source. The US CPI for a particular month is published during the following month.

The US CPI is a measure of the average change in consumer prices over time for a fixed market basket of goods and services, including food, clothing, shelter, fuels, transportation, charges for doctors' and dentists' services and drugs. In calculating the index, price changes for the various items are averaged together with weights that represent their importance in the spending of urban households in the United States. The contents of the market basket of goods and services and the weights assigned to the various items are updated periodically by the BLS to take into account changes in consumer expenditure patterns. The US CPI is expressed in relative terms in relation to a time base reference period for which the level is set at 100.0. The base reference period for Notes paying interest based on the US CPI is the 1982-1984 average.

*The Rate of Interest in respect of Inflation Linked Notes indexed to the US CPI (the "**US CPI Linked Interest**") will be determined by the Calculation Agent on the following basis.*

The relevant Notes will pay a rate per annum linked to the Change in the US CPI plus, if applicable, an additional amount of interest (referred to as the "**spread**") or multiplied by a number (referred to as the "**multiplier**"), as either may be specified in the relevant Final Terms; provided that, unless otherwise specified in the relevant Final Terms, the applicable Rate of Interest for Notes paying interest based on the US CPI will also be subject to a Minimum Rate of Interest equal to 0.00% *per annum*.

Unless otherwise specified in the relevant Final Terms, the "Change in the US CPI" for a particular interval will be calculated as follows:

$$\frac{\text{CPI}(t) - \text{CPI}(t-x)}{\text{CPI}(t-x)}$$

where:

"**CPI(t)**" for any Determination Date is the level of the US CPI for a calendar month (the "**reference month**" which shall be specified in the relevant Final Terms) prior to the calendar month in which the applicable Determination Date falls; and

"**CPI(t-x)**" for any Determination Date is the level of the US CPI for a calendar month prior to the applicable reference month, as specified in the relevant Final Terms.

If by 3:00 p.m. New York City time on any Determination Date the US CPI is not published on Bloomberg "CPURNSA" for any relevant month, but has otherwise been reported by the BLS, then the Calculation Agent will determine the US CPI as reported by the BLS for such month using such other source as, on its face, after consultation with the Issuer, appears to accurately set forth the US CPI as reported by the BLS.

In calculating CPI(t) and CPI(t-x), the Calculation Agent will use the most recently available value of the US CPI determined as described above on the applicable Determination Date, even if such value has been adjusted from a previously reported value for the relevant month. However, if a value of CPI(t) or CPI(t-x) used by the Calculation Agent on any Determination Date to determine the interest rate on a Series of Notes is subsequently revised by the BLS, the interest rate for such Series of Notes determined on such Determination Date will not be revised.

If the US CPI is rebased to a different year or period and the 1982-1984 US CPI is no longer used, the base reference period for Notes paying interest based on the US CPI will continue to be the 1982-1984 reference period as long as the 1982-1984 US CPI continues to be published by the BLS.

If, while any Series of Notes paying interest based on the US CPI is outstanding, the US CPI is discontinued or is substantially altered, as determined in the sole discretion of the Calculation Agent, acting in good faith and in a commercially reasonable manner, the successor index for such Series of Notes will be that index chosen by the Secretary of the Treasury to replace the US CPI for the purpose of calculating payments on the Department of the Treasury's Inflation-Linked Treasuries as described at 62 Federal Register 846-874 (6 January 1997) or, if no such securities are outstanding, the successor index will be determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

In addition, for the purposes of Notes paying interest based on the US CPI, unless otherwise specified in the relevant Final Terms:

"**Determination Date**" shall mean two business days in New York immediately prior to the beginning of the applicable Interest Period, or as specified in the relevant Final Terms (but not more than 28 calendar days prior to the beginning of the applicable Interest Period).

"**Interest Period**" shall mean, in respect of any Series of Notes paying interest based on the US CPI, the period beginning on and including the Issue Date of such Series of Notes and ending on but excluding the first Interest Payment Date, and each successive period beginning on and including a Interest Payment Date and ending on but excluding the next succeeding Interest Payment Date.

- 6.3 **Fixed/Floating Rate Notes:** Fixed/Floating Rate Notes are Notes for which a change of interest basis (the "**Change of Interest Basis**") is specified to be Applicable in the relevant Final Terms. Fixed/Floating Rate Notes may bear interest at a rate that:
- (i) the Issuer may elect to convert on the date set out in the Final Terms (the "**Switch Date**") from a Fixed Rate to a Floating Rate, or from a Floating Rate to a Fixed Rate. The Issuer election to change of interest basis (the "**Issuer Change of Interest Basis**") should be deemed effective after a valid notification sent by the Issuer to the relevant Noteholders within the period specified in the relevant Final Terms; or
 - (ii) will automatically change from a Fixed Rate to a Floating Rate or from a Floating Rate to a Fixed Rate on the date set out in the Final Terms (the "**Automatic Change of Interest Basis**").
- 6.4 **Zero Coupon Notes:** Zero Coupon Notes bear no interest until the Maturity Date. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 7.5.1(b)).
- 6.5 **Accrual of interest:** Interest shall cease to accrue on each Note on the due date for redemption unless (i) in the case of Dematerialised Notes, on such due date or (ii) in the case of Materialised Notes, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgement) at the Rate of Interest in the manner provided in this Condition 6 to the Relevant Date.
- 6.6 **Margin, maximum/minimum rates of interest, rate multipliers and rounding:**
- 6.6.1 If any Margin or Rate Multiplier is specified in the relevant Final Terms, either (x) generally, or (y) in relation to one or more Interest Periods, an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Periods, in the case of (y), calculated in accordance with Condition 6.2 above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
 - 6.6.2 If any Maximum or Minimum Rate of Interest is specified in the relevant Final Terms, then any Rate of Interest shall be subject to such maximum or minimum, as the case may be. Unless a higher minimum interest rate is specified in the relevant Final Terms, the minimum interest rate shall be deemed equal to zero.
 - 6.6.3 For the purposes of any calculations required pursuant to these Conditions, (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit or sub-unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen.
- 6.7 **Calculations:** The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding nominal amount of such Note by the Day Count Fraction and by any Rate Multiplier, unless an Interest Amount is specified in the relevant Final Terms in respect of such period, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount.
- 6.8 **Determination and publication of interest and payment amounts:** The Calculation Agent shall, as soon as practicable, calculate any rate of interest or amount (including any Interest Amount, Final Redemption Amount, Optional Redemption Amount, Early Redemption Amount or Make-Whole Redemption Amount, as the case may be), obtain any quotation or make any other determination or calculation that it is required to make pursuant to these Conditions and the relevant Final Terms, and it shall cause such rate, amount, quotation, determination or calculation (as well as any relevant Interest Payment Date) to be notified to the Issuer, the Fiscal Agent, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed and/or admitted to trading on a

Regulated Market and the rules of, or applicable to, such Regulated Market so require, such Regulated Market as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date is subject to adjustment pursuant to Condition 6.2.2, the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

- 6.9 **Calculation Agent:** The Issuer shall procure that there shall at all times be one or more Calculation Agents if provision is made for them in the relevant Final Terms and for so long as any Note is outstanding. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or to calculate any Interest Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall appoint a leading bank or financial institution engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid. So long as the Notes are listed and/or admitted to trading on any Regulated Market and the rules of, or applicable to, that Regulated Market so require, notice of any change of Calculation Agent shall be given in accordance with Condition 15.

6.10 **RMB Notes:**

Notwithstanding the foregoing, each RMB Note which is a Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate per annum equal to the Rate of Interest. For the purposes of calculating the amount of interest, if any Interest Payment Date would otherwise fall on a day which is not a Business Day, it shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month in which case it shall be brought forward to the immediately preceding Business Day. Interest will be payable in arrear on each Interest Payment Date.

The Calculation Agent will, as soon as practicable after 11.00 a.m. (Hong Kong time) on each Interest Determination Date, calculate the amount of interest payable per Specified Denomination for the relevant Interest Period. The determination of the amount of interest payable per Specified Denomination by the Calculation Agent shall (in the absence of manifest error and after confirmation by the Issuer) be final and binding upon all parties.

The Calculation Agent will cause the amount of interest payable per Specified Denomination for each Interest Period and the relevant Interest Payment Date to be notified to each of the Paying Agents and to be notified to Noteholders as soon as possible after their determination but in no event later than the fourth Business Day thereafter. The amount of interest payable per Specified Denomination and Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest per Specified Denomination shall nevertheless continue to be calculated as previously by the Calculation Agent in accordance with this provision but no publication of the amount of interest payable per Specified Denomination so calculated need be made.

Interest shall be calculated in respect of any period by applying the Rate of Interest to the Specified Denomination, multiplying such product by the actual number of calendar days in the relevant Interest Period or, as applicable, other period concerned and dividing it by 365, and rounding the resultant

figure to the nearest Renminbi sub-unit, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

7. Redemption, purchase and options

7.1 Final redemption: Unless previously redeemed or cancelled as provided below or its maturity is extended pursuant to any option provided by the relevant Final Terms including any Issuer's option in accordance with Condition 7.2 or any Noteholders' option in accordance with Condition 7.3, each Note shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final Redemption Amount (which, unless otherwise provided, is its nominal amount).

7.2 Redemption at the option of the Issuer, exercise of Issuer's options and partial redemption:

7.2.1 Call Option:

If a Call Option is specified in the relevant Final Terms, the Issuer may, subject to compliance by the Issuer with all relevant laws, regulations and directives and on giving not less than fifteen (15) nor more than thirty (30) calendar days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem, or exercise any Issuer's option (as may be described) in relation to all or, if so provided, some of the Notes on any Optional Redemption Date or Option Exercise Date, as the case may be. Any such redemption of Notes shall be at their Optional Redemption Amount (as specified in the relevant Final Terms), together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest).

7.2.2 Make-whole redemption:

Unless otherwise specified in the relevant Final Terms, the Issuer may, subject to compliance by the Issuer with all relevant laws, regulations and directives and on giving not less than fifteen (15) nor more than thirty (30) calendar days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem the Notes, in whole or in part, at any time or from time to time, prior to their Maturity Date. Any such redemption of Notes shall be at their Make Whole Redemption Amount.

7.2.3 Pre-Maturity Call Option by the Issuer:

If a Pre-Maturity Call Option by the Issuer is specified in the relevant Final Terms, the Issuer may, at its option but subject to having given not less than fifteen (15) nor more than thirty (30) calendar days' notice to the Noteholders (which notice shall be irrevocable) in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms), redeem all, but not some only, of the remaining Notes in that Series at par together with interest accrued to, but excluding, the date fixed for redemption, at any time during the period starting on (and including) the "**Initial Pre-Maturity Call Option Date**" (as specified in the relevant Final Terms) and ending on (but excluding) the Maturity Date.

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

7.2.4 Clean-up Call Option by the Issuer:

Unless otherwise specified in the relevant Final Terms, in the event that at least 80 % of the initial aggregate principal amount of the Notes has been purchased or redeemed by the Issuer, the Issuer may, at its option but subject to having given not more than sixty (60) nor less than thirty (30) calendar days' notice to the Noteholders (which notice shall be irrevocable) in accordance with Condition 15, redeem all, but not some only, of the outstanding Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest).

7.2.5 *Exercise of Issuer's options and partial redemption:*

Any redemption or exercise pursuant to paragraphs 7.2.1 and 7.2.2 above shall relate to Notes of a nominal amount at least equal to the minimum nominal amount to be redeemed specified in the relevant Final Terms and no greater than the maximum nominal amount to be redeemed specified in the relevant Final Terms.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption or a partial exercise of an Issuer's option in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Bearer Notes to be redeemed or in respect of which such option has been exercised, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and requirements of the Regulated Market on which the Notes are listed and/or admitted to trading, as the case may be.

In the case of a partial redemption of or a partial exercise of an Issuer's option in respect of Dematerialised Notes, the redemption will be effected by reducing the nominal amount of all such Dematerialised Notes in proportion to the aggregate nominal amount redeemed.

So long as the Notes are listed and/or admitted to trading on a Regulated Market, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, give notice to the Noteholders in accordance with Condition 15 of the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes, of a list of any Definitive Materialised Bearer Notes drawn for redemption but not surrendered.

- 7.3 **Redemption at the option of Noteholders and exercise of Noteholders' options:** If a Put Option is specified in the relevant Final Terms, the Issuer shall, at the option of the Noteholder, upon the Noteholder giving not less than thirty (30) nor more than sixty (60) calendar days' notice to the Issuer (or such other notice period as may be specified in the relevant Final Terms) redeem the relevant Note(s) on the Optional Redemption Date(s) at their Optional Redemption Amount (as specified in the relevant Final Terms), together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest).

To exercise such option (which must be exercised on an Option Exercise Date) the Noteholder shall deposit with a Paying Agent at its specified office a duly completed option exercise notice (the "**Exercise Notice**") in the form obtained from any Paying Agent, within the notice period. In the case of Materialised Bearer Notes, the Exercise Notice shall have attached to it the relevant Notes (together with all unmatured Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Paying Agents as specified in the Exercise Notice. No option so exercised and, where applicable, no Note so deposited or transferred, may be withdrawn without the prior consent of the Issuer.

All Notes in respect of which any such notice is given shall be redeemed, or the Noteholder's option shall be exercised, on the date specified in such notice in accordance with this Condition.

7.4 **Redemption of Inflation Linked Notes:**

- (a) If so specified in the relevant Final Terms, the Final Redemption Amount in respect of Inflation Linked Notes (but excluding those which are designated "HICP - OPTION 2" in the relevant Final Terms) will be determined by the Calculation Agent on the following basis:

Final Redemption Amount = IIR x nominal amount of the Notes

"IIR" being for the purposes of this Condition 7.4 the ratio determined on the fifth Business Day before the Maturity Date between either (i) if the CPI is specified as the Index applicable in the Final Terms, the CPI Daily Inflation Reference Index on the Maturity Date and the Base Reference on the date specified in the Final Terms, (ii) if the HICP is specified as the Index applicable in the Final Terms, the HICP Daily Inflation Reference Index, on the Maturity Date and the Base Reference on the date specified in the relevant Final Terms or (iii) if the US CPI is specified as an Index applicable in the Final Terms, the Change in CPI, but where for these purposes, unless otherwise specified in the relevant Final Terms, the reference to CPI Determination Date in CPI(t) shall be interpreted as the date falling two Business Days prior to the Maturity Date, at the reference to CPI Determination Date in CPI(t-x) shall be interpreted to be the date falling two Business Days prior to the Issue Date.

- (b) If so specified in the relevant Final Terms, the Final Redemption Amount in respect of Inflation Linked Notes (and which are designated "HICP - OPTION 2" in the relevant Final Terms) will be determined by the Calculation Agent on the following basis.

The Final Redemption Amount payable in respect of each Specified Denomination on the Maturity Date will be an amount equal to the greater of (i) the nominal amount of each Specified Denomination and (ii) an amount in euro (rounded, if applicable, to the nearest fifth decimal place, 0.000005 being rounded upwards) determined by the Calculation Agent in accordance with the following formula:

Specified Denomination x Redemption Date Inflation Index Ratio

where,

"Redemption Date Inflation Index Ratio" means the Inflation Index Ratio (as defined in Condition 6.2.4(b)(II)) as determined in respect of the Maturity Date.

7.5 Early redemption:

7.5.1 Zero Coupon Notes:

- (a) The Early Redemption Amount payable in respect of any Zero Coupon Note, upon redemption of such Note pursuant to Condition 7.6 or Condition 7.9 or upon it becoming due and payable as provided in Condition 10 shall be the Amortised Nominal Amount (calculated as provided below) of such Note.
- (b) Subject to the provisions of sub-paragraph (c) below, the Amortised Nominal Amount of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at the Amortisation Yield (which, if none is specified in the relevant Final Terms, shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.
- (c) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 7.6 or Condition 7.9 or upon it becoming due and payable as provided in Condition 10 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Nominal Amount of such Note as defined in sub-paragraph (b) above, except that such sub-paragraph shall have effect as though the date on which the Amortised Nominal Amount becomes due and payable were the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this sub-paragraph shall continue to be made (as well after as before judgement) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 6.5.

Where such calculation is to be made for a period of less than one (1) year, it shall be made on the basis of the Day Count Fraction specified in the relevant Final Terms.

7.5.2 *Inflation Linked Notes:*

- (a) If the relevant Final Terms provide that this Condition 7.5.2 shall apply in respect of Inflation Linked Notes (but excluding those which are designated "HICP - OPTION 2" in the relevant Final Terms), the Early Redemption Amount in respect of such Notes will be determined by the Calculation Agent on the following basis:

Early Redemption Amount = IIR x nominal amount of the Notes

"IIR" being for the purposes of this Condition the ratio determined on the fifth Business Day before the date set for redemption between either (i) if the CPI is specified as the Index applicable in the Final Terms, the CPI Daily Inflation Reference Index on the date set for redemption and the Base Reference specified in the relevant Final Terms, (ii) if the HICP is specified as the Index applicable in the Final Terms, the HICP Daily Inflation Reference Index on the date set for redemption and the Base Reference specified in the relevant Final Terms or (iii) if the US CPI is specified as an Index applicable in the Final Terms, the Change in CPI, but where for these purposes, unless otherwise specified in the relevant Final Terms, the reference to CPI Determination Date in CPI(t) shall be interpreted as the date falling two Business Days prior to the Maturity Date, at the reference to CPI Determination Date in CPI(t-x) shall be interpreted to be the date falling two Business Days prior to the Issue Date.

- (b) in the case of Inflation Linked Notes "HICP - OPTION 2" in the relevant Final Terms, if the relevant Final Terms provides that this Condition 7.5.2 shall apply, the Early Redemption Amount in respect of such Inflation Linked Notes will be determined by the Calculation Agent on the following basis.

The Early Redemption Amount payable in respect of each Specified Denomination on the Maturity Date will be an amount equal to the greater of (i) the nominal amount of each Specified Denomination and (ii) an amount in euro (rounded, if applicable, to the nearest fifth decimal place, 0.000005 being rounded upwards) determined by the Calculation Agent in accordance with the following formula:

Specified Denomination x Redemption Date Inflation Index Ratio

where,

"Redemption Date Inflation Index Ratio" means the Inflation Index Ratio (as defined in Condition 6.2.4(b)(II)) as determined in respect of the Early Redemption Date.

- (c) If the Inflation Linked Notes (whether or not this Condition 7.5.2 applies) fall to be redeemed for whatever reason before the Maturity Date, the Issuer will pay the Early Redemption Amount together with interest accrued to the date set for redemption. Such accrued interest will be calculated by the Calculation Agent in respect of the period from, and including the immediately preceding Interest Payment Date or, as the case may be, the Interest Commencement Date to, but excluding, the date set for redemption of such Notes at a rate per annum on the basis of the provisions of Condition 6.2.4 above except that, for such purposes the relevant Interest Determination Date shall be the fifth Business Day prior to the relevant Early Redemption Date.

7.5.3 *Other Notes:*

The Early Redemption Amount payable in respect of any Note (other than Notes described in 7.5.1 and 7.5.2 above), upon redemption of such Note pursuant to Condition 7.6 or Condition

7.9, or upon it becoming due and payable as provided in Condition 10 shall be the Final Redemption Amount together with interest accrued to the date set for redemption (including, where applicable, any arrears of interest).

7.6 Redemption for taxation reasons:

- 7.6.1 If, (a) by reason of any change in French law, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, the Issuer would on the occasion of the next payment of principal or interest due in respect of the Notes or Coupons, not be able to make such payment without having to pay additional amounts as specified under Condition 9 below or (b) the Issuer has suffered or will suffer a significant non-deductibility of interest or other revenues because any Noteholder is located or payments are made in a non-cooperative State or territory (*Etat ou territoire non-coopératif*) within the meaning of Article 238-0 of the French General Tax Code (*Code général des impôts*), provided in the latter case that (y) the Issuer is required to and has effectively proven that the principal purpose and effect of the issue of Notes were not that of allowing the payments of interest or other revenues to be made in a non-cooperative State or territory (*Etat ou territoire non-coopératif*) and (z) the interest or other assimilated revenues on the relevant Notes relate to genuine transactions and are not in an abnormal or exaggerated amount, and such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Issuer may, at its option but subject to having given not more than sixty (60) nor less than thirty (30) calendar days' notice to the Noteholders (which notice shall be irrevocable) in accordance with Condition 15, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest), provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the Issuer could make payment of principal and/or interest without withholding for such French taxes.
- 7.6.2 If the Issuer would, on the next payment of principal or interest in respect of the Notes or Coupons, be prevented by French law from making payment to the Noteholders or, if applicable, Couponholders of the full amounts then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 9 below, then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall redeem all, but not some only, of the Notes then outstanding at their Early Redemption Amount together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest) on the latest practicable date on which the Issuer could make payment of principal and/or interest without withholding for French taxes or, if such date is past, as soon as practicable thereafter.
- 7.7 **Purchase:** The Issuer or any of its subsidiaries shall have the right at all times to purchase Notes (provided that, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price, in accordance with applicable laws and regulations. Any Notes so purchased by the Issuer may be held and resold in accordance with Article L.213-0-1 of the Code (formerly Article L.213-1 A of the Code) for the purpose of enhancing the liquidity of the Notes, or cancelled in accordance with Condition 7.8.
- 7.8 **Cancellation:** All Notes redeemed or purchased for cancellation by or on behalf of the Issuer will be cancelled (i) in the case of Dematerialised Notes, together with all rights relating to payment of interest and other amounts relating to such Dematerialised Notes, by transfer to an account in accordance with the rules and procedures of Euroclear France, or (ii) in the case of Materialised Bearer Notes, together with all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith, by surrendering the Temporary Global Certificate and the Definitive Materialised Bearer Notes in question together with all unmatured Coupons and all unexchanged Talons to the Fiscal Agent. Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.
- 7.9 **Illegality:** If, by reason of any change in French law, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, it will become unlawful for the Issuer to perform or comply with one or more of its obligations under the Notes, the Issuer will, subject to having given not more than sixty (60) nor less than thirty (30) calendar days' notice to the

Noteholders (which notice shall be irrevocable), in accordance with Condition 15, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest) on the latest practicable date before which it will become unlawful for the Issuer to perform or comply with one or more of its obligations under the Notes or, if such date is past, as soon as practicable thereafter.

8. **Payments and Talons**

- 8.1 **Dematerialised Notes:** Payments of principal and interest (including, for the avoidance of doubt, any arrears of interest, where applicable) in respect of Dematerialised Notes shall be made (i) in the case of Dematerialised Bearer Notes or Dematerialised Administered Registered Notes, by transfer to the account denominated in the relevant currency of the relevant Account Holders for the benefit of the Noteholders or (ii) in the case of Dematerialised Fully Registered Notes, to an account denominated in the relevant currency with a bank designated by the Noteholders. All payments validly made to such Account Holders will constitute an effective discharge of the Issuer in respect of such payments.
- 8.2 **Materialised Bearer Notes:** Payments of principal and interest (including, for the avoidance of doubt, any arrears of interest, where applicable) in respect of Materialised Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Materialised Bearer Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 8.6.5 or Coupons (in the case of interest, save as specified in Condition 8.6.5, as the case may be, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the Noteholder, by transfer to an account denominated in such currency with a bank in the Principal Financial Centre for such currency or, in the case of Euro, in a city where banks have access to the TARGET 2 System.
- 8.3 **Payments in the United States:** Notwithstanding the foregoing, if any Materialised Bearer Notes are denominated in U.S. Dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.
- 8.4 **Payments subject to fiscal laws:** All payments in respect of principal and interest on the Notes are subject in all cases to any fiscal or other laws, regulations, directives or orders of courts of competent jurisdiction applicable in respect of such payments to the Issuer, the relevant Paying Agent, the relevant Account Holder or, as the case may be, the person shown in the records of Euroclear France, Euroclear or Clearstream, Luxembourg as the holder of a particular nominal amount of Notes but without prejudice to the provisions of Condition 9.

The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Redenomination Agent, the Registration Agent and the Consolidation Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) a Redenomination Agent and a Consolidation Agent where the Conditions so require, (iv) in the case of Dematerialised Fully Registered Notes, a Registration Agent, (v) Paying Agents having specified offices in at least one major European city (which shall be Paris so long as the Notes are admitted to trading on Euronext Paris), (vi) a Paying Agent with a specified office in a European Union member state that will not be obliged to withhold or deduct tax pursuant to the Savings Directive and Council Directive 2015/2060/EU and (vii) such other agents as may be required by any other Regulated Market on which the Notes are listed and/or admitted to trading.

On a redenomination of the Notes of any Series pursuant to Condition 2.4 with a view to consolidating such Notes with one or more other Series of Notes, in accordance with Condition 14, the Issuer shall ensure that the same entity shall be appointed as both Redenomination Agent and Consolidation Agent in respect of both such Notes and such other Series of Notes to be so consolidated with such Notes.

Notice of any such change or any change of any specified office shall promptly be given to the Noteholders in accordance with Condition 15.

8.6 Unmatured Coupons and unexchanged Talons:

Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of ten (10) years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 11).
- 8.6.2 If Materialised Bearer Notes so provide, upon the due date for redemption of any such Materialised Bearer Notes, unmaturing Coupons relating to such Notes (whether or not attached) shall become void and no payment shall be made in respect of them.
- 8.6.3 Upon the due date for redemption of any Materialised Bearer Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- 8.6.4 Where any Materialised Bearer Note that provides that the relative unmaturing Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unmaturing Coupons, and where any such Note is presented for redemption without any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.
- 8.6.5 If the due date for redemption of any Materialised Bearer Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be (including, for the avoidance of doubt, any arrears of interest if applicable), shall only be payable against presentation (and surrender if appropriate) of the relevant Definitive Materialised Bearer Note. - 8.9 **Payment of US Dollar Equivalent:** Notwithstanding any other provision in these Conditions, if an Inconvertibility, Non-Transferability or Illiquidity occurs or if Renminbi is otherwise not available to the Issuer as a result of circumstances beyond its control and such unavailability has been confirmed by a Renminbi Dealer, following which the Issuer is unable to satisfy payments of principal or interest (in whole or in part) in respect of RMB Notes, the Issuer on giving not less than five nor more than 30 calendar days' irrevocable notice to the Noteholders prior to the due date for payment, may settle any such payment (in whole or in part) in US dollars on the due date at the US Dollar Equivalent of any such Renminbi denominated amount.

In such event, payments of the US Dollar Equivalent of the relevant principal or interest in respect of the Notes shall be made by transfer to the U.S. dollar account of the relevant Account Holders for the benefit of the Noteholders. For the avoidance of doubt, no such payment of the US Dollar Equivalent shall by itself constitute a default in payment within the meaning of Condition 10.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 8.9 by the RMB Rate Calculation Agent, will (in the absence of manifest error) be binding on the Issuer, the Agents and all Noteholders.

General Meetings may deliberate validly on first convocation only if Noteholders present or represented hold at least one-fifth of the principal amount of the Notes then outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a two-third majority of votes cast by Noteholders attending such General Meetings or represented thereat.

In accordance with Article R.228-71 of the French code de commerce, the rights of each Noteholder to participate in General Meetings will be evidenced by the entries in the books of the relevant Account Holder or the Issuer or the Registration Agent (as the case may be) of the name of such Noteholder on the second business day in Paris preceding the date set for the meeting of the relevant General Meeting at 0:00, Paris time.

- 12.2.9 *Sole Noteholder:* If and for so long as the Notes of any Series are held by a sole Noteholder and unless a Representative has been appointed in relation to such Series, such Noteholder shall exercise all the powers, rights and obligations entrusted with the Representative and the General Meeting by the provisions of Condition 12.2.3 and 12.2.5 above, as appropriate. Such Sole Noteholder shall hold a register of the decisions it will have taken in this capacity and shall make it available, upon request, to any subsequent holder of all or part of the Notes of such Series.

13. Replacement of definitive Notes, Coupons and Talons

Mutilated or defaced Materialised Bearer Notes, Coupons or Talons must be surrendered before replacements will be issued.

14. Further issues and consolidation

14.1 Further issues: The Issuer may, without the consent of the Noteholders or Couponholders create and issue further Notes to be assimilated (*assimilées*) and form a single series with the Notes provided such Notes and the further Notes carry rights identical in all respects (or in all respects save for the principal amount thereof, the issue date and the first payment of interest specified in the relevant Final Terms) and that the terms of such further Notes provide for such assimilation, and references in these Conditions to "**Notes**" shall be construed accordingly.

14.2 Consolidation: The Issuer, with the prior approval of the Consolidation Agent, may from time to time on any Interest Payment Date occurring on or after the Redenomination Date on giving not less than thirty (30) calendar days' prior notice to the Noteholders in accordance with Condition 15, without the consent of the Noteholders or Couponholders, consolidate the Notes of one Series with the Notes of one or more other Series issued by it, whether or not originally issued in one of the European national currencies or in Euro, provided such other Notes have been redenominated in Euro (if not originally denominated in Euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

TAXATION

The statements below regarding taxation are based on law and practice at the date of this Base Prospectus and are subject to any subsequent changes in law or practice (which could be made on a retrospective basis). The following statements do not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and may not apply equally to all persons. Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the tax consequences of their ownership of the Notes.

French taxation

Withholding taxes

The descriptions below are intended as a basic summary of certain withholding tax consequences in relation to the holding of the Notes under current French law by Noteholders who are not shareholders of the Issuer.

Payments of interest and other revenues made by the Issuer with respect to Notes will not be subject to the withholding tax set out under Article 125 A III of the French *code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the French *code général des impôts* (a "**Non-Cooperative State**").

If such payments under the Notes are made in a Non-Cooperative State, a 75 per cent. withholding tax will be applicable (subject to certain exceptions and potentially to the provisions of an applicable tax treaty), by virtue of Article 125 A III of the French *code général des impôts*.

Notwithstanding the foregoing, the 75 per cent. withholding tax set out under Article 125 A III of the French *code général des impôts* will not apply in respect of a particular issue of Notes if the Issuer can prove that (i) the principal purpose and effect of such issue of Notes were not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the "**Exception**") relate to genuine transactions and are not in an abnormal or exaggerated amount. Pursuant to the *Bulletin Officiel des Finances Publiques-Impôts* BOI-INT-DG-20-50-20140211 no. 990, BOI-RPPM-RCM-30-10-20-40-20140211 no. 70 and no. 80 and BOI-IR-DOMIC-10-20-20-60-20150320 no. 10, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes if such Notes are:

- (i) offered by means of a public offer within the meaning of Article L.411-1 of the French *code monétaire et financier* or pursuant to an equivalent offer in a State which is not a Non-Cooperative State. For this purpose, an "**equivalent offer**" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of Article L.561-2 of the French *code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Furthermore, interest and other revenues on Notes will not be deductible from the Issuer's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid to a bank account opened in a financial institution located in such a Non-Cooperative State. Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to Articles 109 et seq of the French *code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 bis of the French *code général des impôts*, at a rate of 30 per cent. or 75 per cent. subject to the provisions of the tax treaty, if applicable.

However, neither the non-deductibility set out under Article 238 A of the French *Code général des impôts*, nor the withholding tax set out under article 119 bis, 2 of the same code will apply in respect of the Notes solely by

reason of the relevant payments being made to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State if the Issuer can prove (i) that it can benefit from the Exception and (ii) that the relevant interest or revenues relate to genuine transactions and are not in an abnormal or exaggerated amount. Pursuant to the official guidelines issued by the French tax authorities under the references, BOI-RPPM-RCM-30-10-20-40-20140211 no. 80 and BOI-INT-DG-20-50-20140211 no. 990, the issue of the Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of the issue of the Notes if the Notes satisfy one of the three above-mentioned (i) to (iii) conditions.

Payments to individuals fiscally domiciled in France

Pursuant to Article 125 A of the French *code général des impôts*, subject to certain exceptions, interest and other similar revenues received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 24% withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at an aggregate rate of 15.5% on interest and other similar revenues paid to individuals who are fiscally domiciled (*domiciliés fiscalement*) in France.

Hong Kong taxation

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the Notes or in respect of any capital gains arising from the sale of the Notes.

PRC taxation

The holders of RMB Notes who are not resident in the PRC for PRC tax purposes will not be subject to withholding tax, income tax or any other taxes or duties imposed by any governmental authority in the PRC in respect of their RMB Notes or any repayment of principal and payment of interest made thereon.

Luxembourg

The Directive has been implemented in Luxembourg law by Act of 21 June 2005. The law of 21 June 2005 has also set up several agreements concluded with certain dependant or associated territories of the European Union Member States and providing for the possible application of a withholding tax.

Individuals

Luxembourg residents

A 10% withholding tax has been introduced, as from 1 January 2006, on interest payments (in the context of their private wealth) made by Luxembourg paying agents (defined in the same way as in the Directive) in the context of the holding, disposal, redemption or repurchase of the Notes to Luxembourg individual residents. Only interest accrued after 1 July 2005 falls within the scope of this withholding tax. Income (other than interest) from investment funds and from current accounts provided that the interest rate is not higher than 0.75% are exempt from the withholding tax. Furthermore, interest which is accrued once a year on savings accounts (short and long term) and which does not exceed €250 per person and per paying agent is exempted from the withholding tax.

This withholding tax represents the final tax liability for the Luxembourg individual resident taxpayers.

Pursuant to the Luxembourg law of 17 July 2008 amending the law of 23 December 2005, Luxembourg individuals acting in the context of their private wealth can opt for a 10 % flat taxation on certain interest accrued from 1 July 2005 and paid as of 1 January 2008 and received from a paying agent located in a member state other than Luxembourg, in a country that is part of the European Economic Area or in certain dependent or associated territories of member states.

The responsibility for the withholding tax in application of the law of 23 December 2005 is assumed by the Luxembourg paying agent (within the meaning of the Directive) and not by the Issuer.

Luxembourg non-residents

Subject to the application of the Directive and the applicable laws, there is no withholding tax on payments of interest (including accrued but unpaid interest) made to Luxembourg non-resident Noteholders.

Under the Directive and the applicable laws, a Luxembourg based paying agent (within the meaning of the Directive) is required since 1 July 2005 to withhold tax on interest and other similar income paid by it to (or under certain circumstances, to the benefit of) a beneficial owner (within the meaning of the Directive) resident in another member state unless the beneficiary of the interest payments elects for the exchange of information. The same regime applies to payments to beneficial owners (within the meaning of the Directive) resident in certain dependent territories.

The withholding tax system will only apply during a transitional period, the ending of which depends on the conclusion of certain agreements relating to information exchange with certain other countries.

The responsibility for the withholding tax in application of the law of 21 June 2005 is assumed by the Luxembourg paying agent (within the meaning of the Directive) and not by the Issuer.

The law of 25 November 2014 amending the law of 21 June 2005 abolishes this withholding tax system with effect from 1st January 2015 in favour of a mechanisms of mandatory and automatic exchange of information on interest payments made by paying agents based in Luxembourg to residents of an other Member State.

Corporations

There is no withholding tax for Luxembourg resident and non-resident corporations holders of the Notes on payments of interest (including accrued but unpaid interest).

All prospective Noteholders should seek independent advice as to their tax positions.

- (ii) in those Public Offer Jurisdictions mentioned in Paragraph 13 of Part B below, provided such person is one of the persons mentioned in Paragraph 13 of Part B below and that such offer is made during the Offer Period specified for such purpose therein.

With respect to any subsequent resale or final placement of Notes as provided in sub-paragraph (ii) above, the Issuer consents to the use of the Base Prospectus and accepts responsibility for the content of the Base Prospectus. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances].²

RECENT DEVELOPMENTS

1. 1st quarter 2017 financial information

The increase in Q1 2017 revenue and adjusted EBITDA confirms the successful return to growth in 2016

- **Commercial momentum was very strong in the 1st quarter of 2017, supported by convergence and very high-speed fixed and mobile broadband in Europe.**

Consumer convergent offers in Europe continued the strong growth of previous quarters, with 259,000 net sales in the 1st quarter of 2017. Year on year, consumer convergent offers rose 11.2%, with 9.5 million customers at 31 March 2017. Convergence is a real catalyst for Orange's growth in Europe.

Growth of the Group's fixed broadband services remained strong, with 200,000 net sales in the 1st quarter of 2017, led by fibre (362,000 net sales). The fixed broadband base was 19.0 million customers at 31 March 2017 (+4.6% year on year on a comparable basis), including 3.7 million fibre customers (+64% year on year).

Mobile contract²⁰ net sales of 298,000 were achieved in the 1st quarter of 2017 with customer base growth of 4.1% year on year on a comparable basis. Mobile 4G in Europe continued to grow rapidly, rising 48% year on year with 29.5 million customers at 31 March 2017. 4G represented 58.4% of the contract base¹ in Europe at that date, a year-on-year increase of 17.4 percentage points.

In Africa and the Middle East, net mobile sales improved very significantly with 2.7 million net additions in the 1st quarter of 2017, led in particular by Mali, Burkina Faso, Côte d'Ivoire and Senegal. Orange Money had 30.8 million customers at 31 March 2017, a 74% increase year on year.

- **Revenues rose 0.8% in the 1st quarter of 2017 (10.070 billion euros)**, after rising 1.0% in the 4th quarter of 2016 (comparable basis), led by the Europe zone and in particular by strong growth in Spain. Fixed broadband services increased 6.3% in the 1st quarter of 2017 related to growth in fibre and TV content in France and Spain. Mobile services were stable at -0.2% and continued to be impacted by the decreased revenues from national roaming in France and the decline in roaming prices in Europe.
- **The Group's adjusted EBITDA was 2.598 billion euros in the 1st quarter of 2017, an increase of 2.0% (+50 million euros)** on a comparable basis. Adjusted EBITDA from telecom activities (2.611 billion euros) rose 2.2% (+57 million euros). The adjusted EBITDA margin rate from telecom activities was 25.9%, an improvement of 0.3 percentage points compared to the 1st quarter of 2016.
- **The Group's CAPEX (1.493 billion euros in the 1st quarter of 2017) increased 2.1% on a comparable basis.** CAPEX rose 1.4% in telecom activities (1.484 billion euros), while the ratio of CAPEX to revenues from telecom activities was 14.7% (+0.1 percentage points compared with the 1st quarter of 2016). Investment in fibre and very high-speed mobile (4G and 4G+) increased, in line with the goals of the Essentiels²⁰²⁰ strategic plan.

²⁰ Excluding machine-to-machine.

On the publication of the results for the 1st quarter of 2017, Stéphane Richard, Chairman and CEO of the Orange Group, commented:

"The first quarter confirms the improvement in the 2016 trend. Revenues are growing, driven by solid commercial performances, particularly in France, Spain and Poland.

The strategy Orange has pursued over a number of quarters, centred on convergence around the home, the best connectivity in the market due to our sustained investment, and an unparalleled customer experience, is bearing fruit.

For the fourth consecutive quarter, adjusted EBITDA is growing, underpinning our objective for 2017 of delivering adjusted EBITDA higher than 2016 on a comparable basis.

Lastly, Orange's diversification into financial services will move into a new phase in 2017. In Africa, Orange Money crossed the 30 million customer mark this quarter, growing by 74% in one year, while in France, the Orange Bank offer will be launched with Orange employees in mid-May and for the general public on 6 July 2017."

The Board of Directors of Orange SA met on 26 April 2017 and examined the Group's results to 31 March 2017.

The financial data and comparable basis data in this press release are unaudited.

* EBITDA adjustments are described in appendix 3.

As from the 1st quarter of 2017, the presentation of revenues has changed, the better to reflect management of the Enterprise market in France. The revenues and operating expenses from mobile services and mobile equipment sales of businesses with more than 50 employees, previously included in the France operating segment, are now combined with the activities of the Enterprise segment. This change had no impact on the Group's statement of income. Only the presentation of revenues and operating expenses of the France and Enterprise segments are changed, with an adjustment on intra-Group eliminations. There was no impact on CAPEX or on the workforce of the two segments. The historical and pro-forma data of the 1st quarter of 2016 take these changes of presentation into account.

In parallel, the customer base has changed, with the transfer from 1 January 2017 of 2.7 million mobile contracts (excluding machine-to-machine), 5.7 million machine-to-machine customers, and 262,000 fixed broadband customers from the France segment to the Enterprise segment. In Appendix 4 of the press release (key performance indicators), the "Orange – France market" section combines the mobile and fixed broadband customer base of both segments to provide a view of all of the customers of those services on the French market.

In addition, fixed-4G²¹ offers, which use the 4G network to provide fixed broadband services, were previously included in mobile services. They are now in fixed broadband services (revenues and customer base). This change concerns Spain, Poland and Romania.

With the consolidation of Orange Bank, the Group's key figures are presented by indicating the share of telecom activities and that of Orange Bank. Since Orange Bank's Net Banking Income is consolidated in the Group's financial statements under the heading "Other operating income", the Group's revenues refer to the telecom activities alone.

Revenues

The Orange Group had revenues of 10.070 billion euros in the 1st quarter of 2017, an increase of 0.8% (+85 million euros) on a comparable basis²², in line with the two previous quarters (+1.0% in the 4th quarter of 2016 and +0.8% in the 3rd quarter).

In France, fixed broadband services rose 5.5% in the 1st quarter of 2017, led by fibre and TV content. The mobile services trend improved (-3.3% in the 1st quarter of 2017 compared with -5.1% in the 4th quarter of 2016) with the less substantial decline in national roaming.

In the Europe zone, revenue growth was 4.5% in the 1st quarter of 2017 on a comparable basis, identical to that of the previous quarter:

- in Spain, revenue growth remained strong (+8.5% in the 1st quarter) and relates to both mobile and fixed services (fibre and TV content);
- in Poland, revenues rose 0.5% in the 1st quarter with very strong mobile equipment sales tied to the success of instalment payment plans;
- Belgium & Luxembourg: mobile services fell 0.4% in the 1st quarter, marked by the decline in incoming mobile traffic (SMS). Fixed services rose 14.3% with the recent growth in convergent offers;
- the Central European Countries increased 3.2% in the 1st quarter: the growth in Romania (+4.6%) and Moldova (+5.6%) was partially offset by the decline in Slovakia (-1.0%).

Africa and the Middle East had growth of 0.7% in the 1st quarter on a comparable basis. Excluding the unfavourable calendar impact in comparison with the 1st quarter of 2016²³, growth would have been 1.5%, in line with the 4th quarter of 2016 (+1.6%).

Enterprise segment: IT and integration services rose 2.6% in the 1st quarter, led in particular by the Cloud (+19%) and security services (+15%). Other services (voice, data and mobile) were down compared with the 1st quarter of 2016.

Customer base growth

In France (including mobile customers from the Enterprise segment), mobile contracts²⁴ had 87,000 net sales in the 1st quarter of 2017, led by the strong growth of Open (185,000 net sales) and Sosh (65,000 net sales) offers. Rapid growth in fibre continued, with 127,000 net sales in the 1st quarter and 1.579 million customers at 31 March 2017 (+46.8% year on year).

In Spain, commercial momentum remained strong in both fixed broadband with 196,000 net fibre sales for the quarter (1.806 million fibre customers at 31 March 2017) and mobile contracts with 119,000 net sales.

In Poland, mobile contracts recorded 190,000 net sales in the 1st quarter of 2017 and the contract customer base rose 10.9% year on year (+927,000 customers). In Belgium & Luxembourg, mobile contracts continued to rise in line with the previous quarters.

In Africa and the Middle East, the mobile base was 123.4 million customers at 31 March 2017, a year-on-year increase of 1.0% on a comparable basis (+1.218 million customers). Orange Money had 30.8 million customers at 31 March 2017.

In all, the Group's mobile customer base comprised 203.5 million customers at 31 March 2017, a year-on-year increase of +1.2% on a comparable basis. Contract customers (70.4 million) increased steadily (+7.7%), led by France and the Europe zone.

Fixed broadband (19.0 million customers at 31 March 2017) rose 4.6% year on year on a comparable basis. Fibre, with 3.7 million customers, was up sharply (+64.2%).

22 On an historical basis, 1st quarter 2017 revenues increased 0.6% compared with the 1st quarter of 2016, which included:

- the impact of changes in perimeter (+1.1 percentage points), mainly with the acquisition of Cellcom in Liberia and Tigo in the Democratic Republic of the Congo (9 months and 6 months of activity in 2016 respectively); and the acquisition of entities from the Bharti group in Burkina Faso (with 6 months of activity in 2016) and in Sierra Leone (with 5 months of activity in 2016);
- the impact of foreign exchange variations (-1.3 percentage points), in particular with the decline in the Egyptian pound and, to a lesser extent, the increase in the US dollar, the Polish zloty and the Jordanian dinar.

23 The 1st quarter of 2017 is one day shorter than in 2016 (leap year), which is significant in a mobile market dominated by prepaids.

24 Excluding machine-to-machine.

Consumer convergent offers in Europe had 9.5 million customers (+11.2% in one year), primarily in France (5.6 million), Spain (3.1 million) and Poland (738,000). The Belgium & Luxembourg segment and Romania have also launched consumer convergent offers quite recently.

TV services had 8.6 million customers at 31 March 2017, a year-on-year increase of 5.4%.

Adjusted EBITDA

The Group's adjusted EBITDA was 2.598 billion euros in the 1st quarter of 2017, an increase of 2.0% (+50 million euros) on a comparable basis.

Adjusted EBITDA from telecom activities was 2.611 billion euros in the 1st quarter of 2017, an increase of 2.2% (+57 million euros) on a comparable basis. Excluding specific items which mainly relate to the 1st quarter of 2016, adjusted EBITDA from telecom activities in the 1st quarter of 2017 was stable compared to the 1st quarter of 2016.

The adjusted EBITDA margin rate from telecom activities was 25.9%, an increase of 0.3 percentage points in relation to the 1st quarter of 2016.

The increase in adjusted EBITDA from telecom activities in the 1st quarter of 2017 was related to revenue growth (+85 million euros), partially offset by increases in certain costs principally concerning content costs with the growth of TV activities and the enrichment of offers in Spain and France, network costs, property expenses and the decreased contribution from the disposal of fixed assets. At the same time, labour expenses fell 5.3% compared with the 1st quarter of 2016 connected partly to the decreased average number of full-time equivalent employees (-2.8% on a comparable basis) and partly to specific items occurring in the 1st quarter of 2016 (employee share ownership offer).

CAPEX

The Group's CAPEX (1.493 billion euros in the 1st quarter of 2017) increased 2.1% on a comparable basis. CAPEX in the telecom activities (1.484 billion euros) rose 1.4%, and the ratio of CAPEX to revenues from telecom activities was 14.7% (+0.1 percentage point compared with the 1st quarter of 2016).

Investments in fibre rose +7% on a comparable basis. They chiefly concerned France, Spain and Poland. A total of 21.5 million households had fibre connectivity across the Group's footprint at 31 March 2017 (+53% year on year), of which 10.0 million were in Spain, 7.4 million in France, 2.1 million in Romania (following the cross-network-sharing agreement with Telekom Romania), 1.7 million in Poland and 352,000 in Slovakia.

Investments continued to be strong in very high-speed mobile services. The 4G coverage rate at 31 March 2017 was 89% of the population in France, 91% in Spain, 99% in Poland, 100% in Belgium, 83% in Romania, 80% in Slovakia, and 98% in Moldova. In France and Spain, investments also sought to improve service quality for recreational areas and transportation. At the same time, 4G+ deployment continued in France and in the other European countries.

In Africa and the Middle East, 3G is deployed in the 21 countries of that segment, with 4G services commercially available in 11 of them (Botswana, Cameroon, Côte d'Ivoire, Guinea Bissau, Jordan, Liberia, Madagascar, Morocco, Mauritius, Senegal and Tunisia). Orange Egypt continued its 4G deployment following the acquisition of a licence last October.

Investment in customer equipment also increased in connection with the success of the New Livebox and its TV decoder marketed in France since May 2016.

The modernisation of stores continued: at 31 March 2017, the Group had 181 stores based on the new Smart Store concept, with 72 in France, 90 in the other European countries, and 19 in Africa and the Middle East.

In the Internet of Things (IoT), a dedicated network based on LoRa technology is being deployed in France and already covers 83 urban areas, or 43% of the population.

Investments in information systems and service platforms continued to be significant to support the transformation effort (the improvement in the customer experience and continued digitalisation of internal processes) in connection with the Essentiels2020 strategic plan.

2017 outlook

For the full year 2017, Orange confirms an adjusted EBITDA greater than that achieved in 2016 on a comparable basis, buoyed by the strong commercial momentum which is supported by investment, and continuing efforts for transformation of the cost structure.

The Group also confirms the objective of a ratio of net debt to adjusted EBITDA from telecom activities of around 2x in the medium term to preserve Orange's financial strength and investment capacity. Within this

framework, the Group is maintaining a policy of selective, value-creating acquisitions by concentrating on markets in which it is already present.

The Group further confirms the payment of a dividend of 0.60 euros per share for 2016²⁵. An interim dividend for 2016 of 0.20 euros per share was paid on 7 December 2016 and the balance of 0.40 euros per share will be paid on 14 June²⁶.

As announced during the presentation of the 2016 results, the Board of Directors will propose to the 2018 Annual General Meeting of Shareholders the payment of a dividend of 0.65 euros per share for financial year 2017, and intends to pay an interim dividend for 2017 of 0.25 euros per share in December this year.

25 Subject to the approval of the Annual General Meeting of Shareholders.

26 The ex-dividend date is set at 12 June 2017 and the record date at 13 June 2017.

Review by operating segment

France

Revenues in France were essentially stable in the 1st quarter of 2017 (-0.1%), after falling 0.9% in the 4th quarter of 2016.

The improved trend was linked to mobile services, which declined only 3.3% in the 1st quarter of 2017 after falling 5.1% in the 4th quarter of 2016, due to a less substantial decrease in national roaming in the 1st quarter 2017. Mobile services continued to be impacted by the cuts in roaming prices in Europe and the growing share of SIM-only offers, which represented 70.0% of consumer contracts at 31 March 2017 (+15 percentage points in one year).

The growth of SIM cards linked to convergent offers remained strong, with 8.5 million SIM cards at 31 March 2017, an increase of 11.7% year on year. There were 18.2 million contract customers²⁷ at 31 March 2017 (+2.6% year on year), and 64% of the consumer contracts included 4G (+15 percentage points in one year).

Fixed services rose 1.6% in the 1st quarter of 2017 after climbing 1.5% in the 4th quarter of 2016. Growth continued to be strong in fixed broadband services (+5.5% in the 1st quarter of 2017 after rising 5.0% in the 4th quarter of 2016), led by growth of the customer base and a rise in ARPU. The fixed broadband customer base had 11.0 million subscribers at 31 March 2017 (+3.7% year on year). It included 1.6 million fibre subscribers, an increase of 47% year on year. The quarterly ARPU of fixed broadband increased 1.6% in the 1st quarter of 2017, due to the growing share of fibre offers and the increase of TV content offers. Consumer convergent offers (5.6 million customers at 31 March 2017, a year-on-year increase of 9.7%) represented 57.3% of the consumer fixed broadband customer base (+2.9 percentage points in one year).

Fixed services to carriers also increased in the 1st quarter of 2017 (+5.1%) with the deployment of fibre and increased revenue from ADSL accesses. Traditional telephony declined 12.2% in the 1st quarter.

Europe

Revenue growth in the Europe zone was 4.5% in the 1st quarter of 2017, the same as in the 4th quarter of 2016, on a comparable basis.

Mobile services revenues grew 2.0% in the 1st quarter of 2017 on a comparable basis. Commercial activity for contracts continued to be strong, with 357,000 net sales in the 1st quarter of 2017 on a comparable basis. The contract customer base had 33.5 million customers at 31 March 2017, an increase of 6.2% year on year, representing more than two thirds (67.4%) of the total mobile customer base at that date (+4.8 percentage points in one year). The growth in contracts offset the decrease in prepaid offers (16.2 million customers, -14.2% year on year).

Revenues from fixed broadband services rose 8.4% in the 1st quarter of 2017 (on a comparable basis), due to rapid growth of fibre and TV content offers in Spain, trend improvement in Poland and the success of the convergence offers recently marketed in Belgium. The fixed broadband customer base in the Europe zone had 6.8 million customers at 31 March 2017 (+6.6% year on year on a comparable basis), including 2.0 million fibre customers, mainly in Spain.

Consumer convergent offers in the Europe zone had 153,000 net sales in the 1st quarter of 2017, led by Poland, Spain and, to a lesser extent, the Belgium & Luxembourg segment and the Central European Countries. At 31 March 2017, the consumer convergent offers customer base in the Europe zone had 3.9 million customers, a year-on-year growth of 13.2%.

Spain

Revenues continued to climb in Spain, +8.5% in the 1st quarter of 2017 due to growth in mobile services and fixed broadband services, led by convergence which had a 12.1% increase in revenues compared to the 1st quarter of 2016.

Consumer convergent offers continued their steady growth, with 48,000 net sales in the 1st quarter of 2017. They had a total of 3.1 million customers at 31 March 2017 (+6.5% year on year) and represented 82% of the consumer fixed broadband customer base at that date (+1.5 percentage points in one year).

Mobile services rose 8.1% in the 1st quarter of 2017, pulled by the continued enrichment of offers and the deployment of 4G, which had a total of 8.2 million customers at 31 March 2017 (1.4x year on year). The contract

²⁷ Excluding machine-to-machine.

customer base²⁸ grew 3.2% year on year (11.297 million customers at 31 March 2017), and the quarterly ARPU of contracts rose 4.0%. Growth was also significant in mobile services provided to other carriers, in particular the growth of MVNOs and network sharing.

Fixed services rose 7.5% in the 1st quarter of 2017, led by continued strong revenue growth in fixed broadband (+8.5%). Fixed broadband had 4.2 million customers at 31 March 2017 (+5.4% year on year), and quarterly ARPU rose 3.0%. Fibre in particular increased sharply with a total of 1.8 million customers at 31 March 2017 (1.8x in one year), which represented 43% of the fixed broadband customer base at that date (+18 percentage points in one year). TV services also rose rapidly, with 537,000 customers at 31 March 2017 (1.5x year on year), led by the success of content offers and notably the broadcasts of football championships.

Poland

Poland's revenues rose 0.5% in the 1st quarter of 2017 on a comparable basis. They benefitted from a very sharp increase in mobile equipment sales linked to a rapid increase in sales on the instalment payment plan and from the growth of fixed equipment sales, in particular related to ICT²⁹.

Mobile services fell 6.6% in the 1st quarter of 2017, reflecting the above-mentioned rapid growth of instalment payment plan sales and SIM-only offers, as well as bonuses offered to pre-paid customers for SIM card registration. Commercial momentum continued to be high, with 190,000 net contract sales in the 1st quarter of 2017. The contract customer base had 9.5 million customers at 31 March 2017, a year-on-year growth of 11.1% on a comparable basis, and 4G had 4.6 million users at 31 March 2017 (1.9x year on year).

The prepaid customer base recorded a net loss of 1.9 million customers year on year (-24.4%) related to migrations to contracts and to the mandatory registration of customer identities which began last July, but had a limited impact on the revenue trend.

Fixed services fell 5.4% in the 1st quarter of 2017 on a comparable basis. The decrease was related to traditional fixed services (fixed telephony and carrier services). Fixed broadband rose 1.3% in the 1st quarter of 2017. The customer base (2.3 million customers at 31 March 2017) climbed 7.6% year on year, led by the rapid development of Wireless for fixed, fibre and VDSL. At 31 March 2017, very high-speed offers had 544,000 customers (1.5x year on year) including 117,000 fibre subscribers.

Consumer convergent offers continued the steady climb of the previous quarters, with 72,000 net sales in the 1st quarter of 2017. The consumer convergent offers customer base in Poland was 738,000 at 31 March 2017, a 39% increase year on year.

Belgium & Luxembourg

Revenues declined 0.7% in Belgium & Luxembourg in the 1st quarter of 2017, after falling 0.2% in the 4th quarter of 2016. The revenue trend was impacted by a downturn in mobile equipment sales.

Mobile services declined 0.4% in the 1st quarter of 2017 after rising 2.0% in the 4th quarter of 2016 due to a greater downturn in incoming mobile SMS traffic. The contract customer base³⁰ (2.348 million customers at 31 March 2017) grew 1.6% year on year, and quarterly ARPU from contracts in Belgium increased 1.1%, led by 4G data services. These favourable changes offset the decline in prepaid offers, where the customer base fell 16.6% year on year. The MVNO customer base had 2.0 million customers at 31 March 2017 (+9.9% year on year).

Fixed services rose 14.3% in the 1st quarter of 2017 after rising 3.1% in the 4th quarter of 2016, led by the growth of the new LOVE convergent offers (mobile and Internet + TV), which had 50,000 customers at 31 March 2017. This major milestone, reached just a few months after the commercial launch, confirms Orange Belgium's successful arrival as an alternative convergence player in the Belgian market.

Central European Countries

Revenues in the Central European Countries rose 3.2% in the 1st quarter of 2017 on a comparable basis.

In Romania, revenues rose 4.6% in the 1st quarter of 2017, led by mobile services and mobile equipment sales. TV services had 342,000 customers at 31 March 2017, a 16.4% increase year on year. Fixed broadband services had 112,000 customers at 31 March 2017, including 99,000 connected with the deployment of fixed-4G and 12,000 with that of fibre.

In Slovakia, revenue decline was limited to 1.0% in the 1st quarter of 2017. Mobile services fell 2.1% while mobile equipment sales rose 8.6%. Fixed broadband had 163,000 customers at 31 March 2017 (+4.4% year on year), including 74,000 fibre customers.

In Moldova, revenues rose 5.6% in the 1st quarter of 2017 (on a comparable basis), led by mobile equipment sales, while incoming international traffic was still in decline. With the consolidation of Sun Communications in October 2016, Orange Moldova had 99,000 TV services customers at 31 March 2017, while fixed broadband had 45,000 customers.

The Central European Countries had a mobile customer base of 14.7 million customers at 31 March 2017, with contracts (8.1 million customers) representing 55.4% of the mobile customer base at that date. The 4G mobile customer base (3.5 million customers) increased sharply (x1.8 year on year).

The fixed broadband customer base had 319,000 customers at 31 March 2017. Fibre, present in all three countries, rose 25.5% with 90,000 customers at that date.

Consumer convergent offers in the Central European Countries (Romania and Slovakia) had 19,000 net sales in the 1st quarter of 2017 and a total of 71,000 customers at 31 March 2017.

Africa & Middle East

Revenues in the Africa & Middle East segment rose 0.7% in the 1st quarter of 2017 on a comparable basis. Restated for the unfavourable calendar impact in the comparison with the previous year³¹, revenues in the Africa & Middle East segment would be up 1.5%, in line with the 4th quarter of 2016 (+1.6%).

Mobile data services continued to rise sharply increasing 31% in the 1st quarter of 2017, while revenues from Orange Money rose 64%. Orange Money had 30.8 million customers at 31 March 2017, including 9.1 million active customers. 4G services are commercially available in 11 countries (Botswana, Cameroon, Côte d'Ivoire, Guinea Bissau, Jordan, Liberia, Madagascar, Morocco, Mauritius, Senegal and Tunisia), and Orange Egypt continues to deploy 4G following the acquisition of a licence last October.

The principal contributors to revenue growth in the 1st quarter were Mali, Burkina Faso, Guinea and Côte d'Ivoire.

In the Africa & the Middle East segment, the mobile customer base had 123.4 million customers at 31 March 2017, a year-on-year increase of 1.0% on a comparable basis (+1.218 million customers). The customer base trend gradually improved following the 0.3% decline in 2016 (-354,000 customers), impacted by an extraordinary level of disconnections related to the strengthened regulations on customer identification in most countries.

Enterprise

Revenues in the Enterprise segment fell 2.0% in the 1st quarter of 2017 after declining 0.1% in the 4th quarter of 2016 on a comparable basis. The growth of IT and integration services largely offset the downturn in voice services, data services and mobile.

IT and integration services increased 2.6% in the 1st quarter of 2017 after climbing 4.0% in the 4th quarter of 2016. The Cloud grew 19%, security services increased 15% and Applications³² grew 3.5%.

Voice services fell 6.4% in the 1st quarter of 2017 after declining 0.9% in the 4th quarter of 2016, with a more pronounced downturn in traditional telephony. Added to this was a decrease in customer relationship services (contact number services) after the significant growth recorded in 2016, while voice-over-IP remained stable.

Data services recorded a 2.6% decrease in the 1st quarter of 2017 after the 3.3% decline in the 4th quarter of 2016, related largely to broadcasting (-11.8%). IPVPN services were essentially stable in the 1st quarter of 2017 (-0.3% after falling 1.5% in the 4th quarter of 2016). There were 353,000 IPVPN subscribers at 31 March 2017, year-on-year growth of 1.6%.

Mobile services and mobile equipment sales declined 2.7% in the 1st quarter of 2017 after rising 1.1% in the 4th quarter of 2016, due to a more pronounced downturn in roaming revenues related to the less favourable trend in the mix between Europe and the other international destinations.

31 The 1st quarter of 2017 is one day shorter than in 2016 (leap year), which is significant in a mobile market dominated by prepaids.

32 Applications include projects in the machine-to-machine and connected objects fields, the digital customer experience, data analysis (Big Data) and systems integration.

International Carriers & Shared Services

Revenues in the International Carriers & Shared Services segment fell 10.4% in the 1st quarter of 2017 on a comparable basis, mostly in connection with a downturn in services to international carriers. Added to this was the decrease in revenues from the Viaccess subsidiary, which had benefitted in the 1st quarter of 2016 from a programme to renew TV decoder boards.

Appendix 5: glossary

Key figures

Comparable basis: data based on comparable accounting principles, scope of consolidation and exchange rates are presented for previous periods. The transition from data on an historical basis to data on a comparable basis consists of keeping the results for the period ended and then restating the results for the corresponding period of the preceding year for the purpose of presenting, over comparable periods, financial data with comparable accounting principles, scope of consolidation and exchange rate. The method used is to apply to the data of the corresponding period of the preceding year, the accounting principles and scope of consolidation for the period just ended as well as the average exchange rate used for the income statement for the period ended.

Reported EBITDA: operating income before depreciation and amortisation, before impacts related to acquisitions of controlling interests, before reversal of reserves of liquidated entities, before impairment of goodwill and assets, and before income from associates. Reported EBITDA is not a financial aggregate as defined by IFRS standards and may not be directly comparable to similarly named indicators in other companies.

Adjusted EBITDA: EBITDA (see definition), adjusted for the impacts of key disputes, specific labour expenses, the review of the portfolio of shares and operations, the cost of restructuring and consolidation, and, as applicable, other specific and systematically identified items. Since the 1st quarter of 2016, Adjusted EBITDA excludes all income from the disposal of shares and operations and the Adjusted EBITDA for past periods was revised accordingly. Adjusted EBITDA is not a financial aggregate as defined by IFRS standards and may not be directly comparable to similarly named indicators in other companies. Adjusted EBITDA is the new name (since the 4th quarter of 2016) for the restated EBITDA aggregate; the definition of this indicator is unchanged.

CAPEX: capital expenditure on tangible and intangible assets excluding telecommunication licences and investments through finance leases. CAPEX is not a financial performance indicator as defined by IFRS standards and may not be directly comparable to indicators referenced by the same name in other companies.

Mobile services

Revenues from mobile services: include revenues generated by incoming and outgoing calls (voice, SMS and data services), network access fees, added-value services, machine to machine, roaming revenues from customers of other networks (national and international roaming), revenues with mobile virtual network operators (MVNO) and revenues from network sharing.

Mobile ARPU: the quarterly average revenues per user (ARPU) are calculated by dividing the revenues from incoming and outgoing calls (voice, SMS and data services), network access fees, added-value services and international roaming over the past three months, by the weighted average number of customers over the same period, excluding "machine to machine" customers. The weighted average number of customers is the average of the monthly averages during the period in question. The monthly average is the arithmetic mean of the number of customers at the start and end of the month. Mobile ARPU is expressed as monthly revenues per customer.

Roaming: use of a mobile service on the network of an operator other than that of the subscriber.

MVNO: Mobile Virtual Network Operator. These are operators that do not have their own radio network and thus use the infrastructure of third-party networks.

Fixed services

Includes traditional fixed telephony, fixed broadband services, enterprise solutions and networks³³ and carrier services (notably national and international interconnections, unbundling and wholesale telephone line rentals).

Fixed broadband ARPU (ADSL, FTTH, VDSL, Fixed-4G, satellite and WiMAX): the quarterly average revenues per user (ARPU) of broadband services per year are calculated by dividing the revenues generated by consumer broadband services over the past three months by the weighted average number of connections over the same period. The weighted average number of connections is the average of the monthly averages during the

³³ With the exception of France, where enterprise solutions and networks are mostly listed under the Enterprise business segment.

period in question. The monthly average is the arithmetic mean of the number of connections at the start and end of the month. Fixed broadband ARPU is expressed as monthly revenues per connection.

Fixed-4G (fLTE): fixed broadband offer using 4G technology as a substitute for the fixed-line network.

Convergence

Consumer convergent offers customer base: consists of consumer customers who have subscribed to offers combining at least a fixed broadband connection and a mobile contract.

2. Administrative, Management and Supervisory Bodies

On 7 June 2017, the Shareholders' Meeting resolved to renew the terms of office of Bpifrance Participations and to ratify the appointment of Mr. Alexandre Bompard as director, as decided by the Board of Directors during its meeting of December 7, 2016 to replace Mr. Bernard Dufau who resigned from office.

3. Litigation

On June 16, 2017, the Paris Court of Appeal upheld its ruling of 2014 dismissing all Numericable's claims amounting to 2.58 billion euros aimed at compensating damage caused by an alleged de facto termination of the agreements signed with Orange in 1999 and 2001 at the time of the sale of its cable networks, for the use of Orange's civil engineering installations.

In the procedure opposing Orange to Lectiel before the Paris Court of Appeal regarding the amount of damages possibly suffered by Lectiel as a result of Orange's refusal to deliver to Lectiel its directory database together with daily updates free of charge, for which Lectiel claims 4.7 billion euros, the expert appointed by the Court issued on May 15, 2017 its provisional report where it assesses the damages at 6.5 million euros including interest. The expert's final report is expected at the end of June 2017.

In Spain, the Court of Appeal rejected on May 23, 2017 the appeal filed by British Telecom (BT) against the decision of the CNMC dated March 11, 2014 which had rejected BT's complaint on the margin squeeze in the wholesale markets of the Spanish mobile phone segment.

On March 3, 2017, Orange Polska was informed that the Court of Justice of the European Union (CJEU) will not deal with Orange Polska's complaint against the decision to uphold the 128 million euros penalty imposed by the European Commission in 2011 until another dispute involving the use of dominant positions by companies has been settled by the CJEU.

On March 15, 2017, the Warsaw Court of Appeal upheld the annulment by the Court for the protection of competition and consumers of the penalty imposed by the Polish Competition Authority (UOKIK) on the four major Polish mobile operators, including Orange Polska, for collusion to delay the development of new services in the mobile television market. The UOKIK has appealed before the Supreme Court. Following this decision the claim for damages brought by the company Magna Polonia against the operators in the amount of 140 million euros is currently groundless.

4. Others

On 18 May 2017, Orange announced that it has entered into exclusive negotiations to acquire a controlling stake of around 67% of Business & Decision, a company listed on Euronext Paris specialising in data and digital services.

On 19 June 2017, Orange has successfully completed the sale of 133 million BT shares through a private placement by way of an accelerated bookbuilding, of which circa 64 million shares sold to eligible institutional and qualified investors and circa 69 million shares acquired by BT and its Employee Share Ownership Trust. Such sale was simultaneous to an issuance of bonds exchangeable into BT shares at a negative interest rate after hedging in euro for an amount of GBP 517 million due June 2021.
